

CONTENTS.

PART I.

REPORT OF THE PRESIDENT.	PAGE. ix
Students in attendance, ix—Analysis of College Roll, x—New Buildings, xii—Water Supply, xii—Electric Light, xii—Outside Work, xiii—English and Physics, xiii—Biology, xiii—Dairy Department, xiv—Experimental Feeding, xiv—Horticulture, xv—Bacteriology, xv—Field Experiments, xv—The Farm Proper, xv—Poultry Department, xvi—Apiculture, xvi—Drill and Gymnastics, xvi—Travelling Dairy, xvi—Eastern and Western Dairy Schools, xvii—Class Room Work, xvii—Examiners, Graduates, etc., xvii—Financial Statement, xx.	

PART II.

REPORT OF THE LECTURER IN ENGLISH LITERATURE AND PHYSICS.	
English Literature, 1—Physics, 2—Physical Analysis of Soil, 2.	

PART III.

REPORT OF THE PROFESSOR OF BIOLOGY AND GEOLOGY	
Work in Lecture Room and Laboratory, 5—Correspondence, Lectures, etc., 6—The Museum, 6—Practical Work, 6—Bordeaux Mixture as an Insecticide, 7—Vitality of the Common Bindweed, 7—Identification of Plants, 1896, 8—Identification of Insects in 1896, 7—English Plantain or Ribgrass, 10—Perennial Sow Thistle, 11—Bindweed, 11—Inspection of Localities where Injurious Insects and Plants are doing much damage, 11—Pea Tree Slug, 12—Pea Blight, 13—Spring Canker Worm, 15—Red Legged Grasshopper, 16—Tussock Moth, 17.	

PART IV.

REPORT OF THE PROFESSOR OF CHEMISTRY	21
The Old Chemical Building destroyed by fire, 21—The New Chemical Building, 21—Plans of Laboratory, 22 and 23—Composition of Ashes of different Woods, 24—Food and Milk Production, 26—Food Affects the Yield of Milk, 26—Composition of Milk not Affected by Food, 29—Cut of New Chemical Laboratory, 31—Composition of Hay as Affected by Maturity, 32.	

PART V.

REPORT OF THE PROFESSOR OF VETERINARY SCIENCE	35
Work in the Class Room, 35—Treatment of Stock, 36.	

PART VI.

REPORT OF THE PROFESSOR OF DAIRY HUSBANDRY	39
Dairy school, 39—Dairy experiments, 41—Relation of fat in milk to quantity and quality of cheese, 41—Butter fat lost in whey, 45—Loss in weight while curing, 46—Ripening of milk before adding rennet, 51—Acid on curd at dipping, 54—Milling the curd, 55—Effect of salt on curd, 56—Temperature of curds at the time of putting to press, 57—Separating cream, 58—Jersey cows' butter, 59—Effect of period of lactation on creaming of milk and quality of butter, 60—Loss of fat in skim-milk from farmers' dairies, 61—Temperature for ripening cream, 61—Thick vs. thin cream for churning, 62—Pasteurized cream, 62—"Pure Cultures" vs. "Starters" made from pasteurized skim-milk, 63—Effect of washing butter, 65—Effect of salt on quality of butter, 65—Dairy stock, 66—Record of dairy cows, 66—Dairy Conventions and Farmers' Institute meetings, 68—Testing rennet, 69—Square cheese, 69—Dairy tests, 69—Needs of dairy department, 70.	

PART VII.

REPORT OF THE AGRICULTURIST	71
Teaching, 71—Experimental feeding, 71—Comparison of the value of sweet and sour whey for fattening hogs, 78—Experiments in progress, 81—Experimental Union, 81—Farmers' Institutes and Correspondence, 81.
