## GERMANS BUILD SHIELDS WITH BODIES OF DEAD

New Brunswick Soldier Gives Vivid Picture of Scenes on the Battle-ground

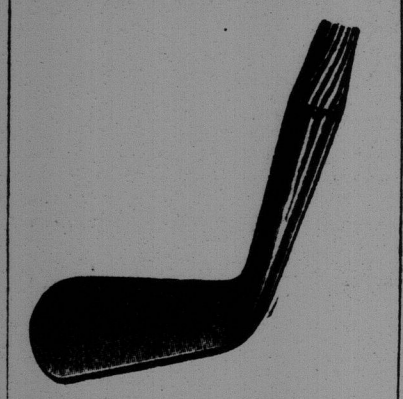

Sergt. Fred Wade, of Penniac, was in the battles at Hill 60, St. Julien, Ypres and La Bassée. He writes:—  
"It is simply hell out here. The dead are lying in heaps, many of them lying unburied since October. The Germans have even built shields with the bodies. We went into battle at Ypres 1,100 strong, and came out minus 183; all but three of our officers were killed. It certainly was awful, we being outnumbered twenty to one. The Germans were even cruel enough to bayonet our wounded. At present we are resting. The week in the fighting line. The German snipers are great shots. Just stick your head over the trench and you get it. Their big guns, the Jack Johnsons we call them, are awful. When the shells burst, they kill thirty

## Why Don't They Let Us Go?

(By a member of the Divisional Ammunition Column.)  
We were drilling on the Island, when we heard the order read To pack our kit for Fredericton, and Dingle Connors said: "Well, boys, we're on our way at last, I'm sure it's very clear That the Ammunition Column is not wanted HERE."  
We thought the country needed us; we heard it everywhere When all of us enlisted, and it didn't seem hardly fair To keep us up in Fredericton for nearly half a year. For an Ammunition Column is a big thing over THERE.  
For England's fame and honor, in the European war, Canadians are fighting and there's need of many more. We'll cross the broad Atlantic soon, and try to do our share. For an Ammunition Column is a big thing over THERE.  
We'll say good-bye to Fredericton; and, oh you pretty girls! We'll miss your roguish glances and the tickling of your curls. You might have captured Section One—we gave you ALL a chance. You'll be sorry when we leave you for the sunny land of France.  
Chorus:  
If England needs our services, why don't they let us know? If men are needed over seas, why don't they let us go? If you're writing to the fellows at the front be sure and tell That we'd like to be among them when they give the Germans hell

## SEAT SALE FOR CHOCOLATE SOLDIER OPENED THIS MORNING

Big Demand For Tickets For The Engagement of This Most Popular Comic Opera

Kitty Burke as "Mardi" in the famous opera "The Chocolate Soldier" at the Opera House next week.  
The advance sale of tickets for the engagement of the world's famous comic opera, "The Chocolate Soldier," which is to be at the Opera House all of next week, with special matinee on Wednesday and Saturday, opened this morning. The indications are that St. John theatre goers are going to give this splendid attraction a rousing welcome on Monday night, as there has been a steady demand for tickets all day.  
A real high class opera with a cast in which are such artists as J. Francis Boye, Tena Randall, George Talman, Kittle Barker, Della Nerina, Walker Green and W. H. White, together with

a special augmented orchestra, makes a combination that seldom comes this way. The box office is open daily from 10 a. m. to 8.30 p. m. Phone Main 1868.  
**MAKE IT A MONTECAT CIRCULAR**  
"What do you mean when you say, 'Make it a Montecat Circular?'" asked the visitor on the Golf Links.  
"It is the favored drink just now," said the host.  
"It is made with a little Montecat Lime Fruit Juice and a little syrup or sugar, in ice water. I tell you, it is a grand drink."  
The visitor tried it—"My eye, it is good," said he.  
**MONTECAT LIME FRUIT JUICE** can be had at all leading grocers.

## They Look Alike But—

The average cup of tea or coffee contains from 1 1/2 to 3 grains of caffeine, a subtle, poisonous drug.

Caffeine is cumulative, and day by day pounds away at nerves, heart and other organs, finally showing in biliousness, headache, sleeplessness, heart flutter, nervous prostration, etc.

A cup of

## INSTANT POSTUM

has a delicious, snappy flavor and fine color, but contains no tea, coffee, caffeine, nor other harmful substance.

Postum—made of whole wheat, roasted with a little wholesome molasses—is a pure food-drink and is taking the place of coffee with thousands of people who appreciate health and comfort.

Postum comes in two forms:

**Postum Cereal**—the original form—requires thorough boiling to bring out its flavor and food value. 15c and 25c packages.

**Instant Postum**—the soluble form—is prepared in the cup instantly with hot water. 30c and 50c tins.

Both kinds are equally delicious—cost per cup about the same—sold by grocers everywhere.

## Charles B. Rand, the Famous Boston Optical Expert

Will Open a Permanent Branch Office in

**ROBINSON BUILDING, Market Sq. Room 20 St. John,**

where he will examine all eyes by the Rand Special System of fitting glasses

## THE RAND SYSTEM OF FITTING GLASSES

is a new principle that I have discovered and perfected by which, through looking into the eyes and taking the exact measure of the eyes all errors of refraction are corrected without the use of letters and lines hung on the wall and without asking you, "Can you see with this lens, or can you see better with that lens?" until finally your eyes get so confused that you cannot tell which lens you can see out of.

Think this over and you will no doubt see why you have not been fitted with correct glasses.  
I have thousands of satisfied customers whom I have fitted and helped, and many of them had absolutely failed to receive correct glasses before. They are now wearing my glasses and have sent me many customers, who have also received great benefit.

For TEN DAYS to introduce the RAND SYSTEM, I shall examine all eyes free of charge. This examination is worth \$5.00 of anybody's money. I shall also fit all glasses at greatly reduced rates for this limited time.

I am fitting a beautiful pair of glasses as low as \$8.00 and also fitting the most complicated lenses to fit the most difficult cases at about one-half my regular price. I am also giving away free with every lady's eye glass a nice hair pin chain. Read the following testimonial:

Dear Sir: The glasses received from you are perfect—the best I have ever used. I had many pairs fitted by the old method, but never had any satisfaction until you fitted me by your special system. I recommend you to all.  
Respectfully yours,  
A. R. C. CLARK, 81 Water Street, St. John.

**Opening Day—Saturday, June 12th—Hours 9 a. m. to 6 p. m. Daily—Friday Evenings Until 8.30**

To everyone that has been unable to receive correct glasses, be sure and take advantage of this offer, and have your eyesight examined by an expert, who can tell at a glance just what can be done for you.

If glasses are not needed you will be candidly told so, and no one is under any obligation whatsoever.  
Glasses made with the very latest styles and adjustments. Every frame and mounting measured directly from your face and made to fit each individual case.
