

LABOR'S FUNCTION

Blind Samsons

A striking illustration of the destructive tendencies of Dangerous Doctrinaires is given by Samuel Gompers. Mr. Gompers sees in every Bolshevik, Anarchist, and "Ramping Red", a "Blind Samson", who, in his blind Fury would topple the Temple of Civilization and the Temple of Labor.

BLIND to Reason the infuriated Giant tugs at the props of civilization. Honor, Tolerance, Justice, Mercy, Thrift, Patriotism, Ambition---these he would snap to splinters with his stained hands. He would rend asunder the sustaining Pillars of Organized Labor, crushing himself and his Fellow Man in the Ruin of the National Structure of Industry.

This unreasoning Giant must be thwarted by the immediate and continued co-operation of Labor and Capital---lest all perish beneath the structure so indispensable to all classes.

SAFEGUARD the Future. Open the Eyes of the Blind Sampsons. Try Education as an Eye-Opener---it's slow but sure. Surround these Blind Samsons with the sane and sound literature of Labor and advise them with the wise counsel of true Labor Leaders. Let in the full flood of Light---Education---and the Germs of Blind Violence and Unsound Theories will vanish before the Light. Let there be Light!
