A BAD FACE HUMOR

About seven years ago I had a humor break out upon my face; is started in a small-blotch and looked like a rings orm, and becume very painful. I at once went to one of the best doctors in the city, and he could do me no good. No less than twelve of the best doctors have had a trial at my face, and all of them failed. I will not give you a list of their names, but will say that they were from Boston, New York, and Maine, also from England, France, and Canada. I have teen a hotel cook and steward for years. In the summer I cook at watering places; that is why I have had an opportunity of bod g smong good doctors. They could not one my face, and I had given up all hopes of ever being any better. Last June, I went to Moosehaad Lake, Maine, to cook for the season. My face was so bad I did not like to be seen. At the lake I met a gentlemnaj from England. He told me to use your CUTIEURA REMMEDIES, and they would cure me at once. I did so. The result was, in three weeks the sores on my face were lest-and no scars to be seen, a thave recommended it to a number, and in every case it has cured them. It would take a great deal of mony to put me baker. imos, and the great deal of money to put me bad re I was one year ago, providing I did not know the your Cerscuta, would do. I shall resomment a long as I live and shall ever reniath,
