CLEARED HIS DOUBTS.

A well-known English gentleman engaged a tall and powerful Highlander to act as gamekeeper on his estate. Having been a considerable time at his post and not having caught any poachers, the gentleman suspected his gamekeeper of carelessness. So one dark night he disguised himself and went out with a gun to poach on his own ground. He had only fired one or two shots when he was suddenly pounced upon from behind and his gun wrenched away. Then kicks and blows were showered upon him, until he fell down

WONDERFUL BARTHQUAKE EX-PERIENCE.

PERIENCE.

(London Globe.)

The inscription on a tombstone in a Jamaica cemetery shows that the individual there commemorated had survived an earthquake. The inscription is as follows: Lewis Gladys, Esq., who died on the 22nd September, 1727, aged 80. He was born at Montpeller, in France, which place he left for his religion and settled on this Island, where in the great earthquake, 1672, he was swallowed up, and by the wonderful providence of God by a second shock was thrown into the sea, where he continued swimming until he was taken up by a boat, and thus miraculously preserved. The earthquake mentioned took place in Tamaica 239 years ago.

PROVINCIAL POLITICS.

The Globe agrees with another pro vincial paper that provincial politics would be better conducted if the par-ties divided on federal lines. This is conceive how the affairs of the provbody of men elected by the people of New Brunswick. This province has been for years the happy hunting ground of the opportunist, who profits the fact that the people condone his ofwhere a politician must give some other reason than personal gain for jumping the political fence, or be turned down by all parties, we shall be within reach of better government. But so long as it is understood that deals for tics, we may expect just what has cent years. In other provinces New Brunswick is regarded askance as a place where the people do not take their politics seriously enough to care any convictions or not, so long as there s a semblance of government and the evidence of it in contracts for those who contribute handsomely to the elec tion funds.

HARVEST EXCURSIONS.

Harvest excursions to the west will that the Manitoba government is taking steps to remove the causes of complaint which existed last year. A Win nipeg paper says:-

The department of agriculture of the local government have sent out post cards to all their crop correspondents in the province requesting them to send in not later than July 25 an estimate cards to all their crop corresponders. In the province requesting them to send, in npt later than July 25 an estimate of the number of men, in addition to those already at hand, that will be required to harvest the forthcoming crop. The crop will no doubt be a very large one, and a large number of men from the east will be required. The government are taking the matter in hand, and will endeavor not only to secure plenty of men, but to put them without delay into whatever portion of the previous years there has been a tendency on the part of farm laborers to rush to terminal, points and to congregate in the larger centres with the result that while in some places there were more men than work at other points there was a great scarcity of men. It took some little time to get things adjusted properly, and caused a great deal of trouble. All these difficulties will, it is expected, be avpided this year, and the business like basis. To secure the best results, however, the hearty co-operation of the farmers will be required. Already enquiries for labor are reaching the department. Last year 20,600 were wanted; over 18,000 came, and before the season was finished 4,000 or 5,000 more could have secured employment. Present indications are that as many, or even more men, will be required this year.

ed himselt:—

The papers I represent are beginning to take a greater interest in this country. They have even asked that all crop reports be cabled to them. This increased interest may be accounted for by the fact that the German farmer—I mean the best class of farmer, industrious, intelligent, and with some means—is beginning to turn his attention towards Canada as a suitable place to settle in. Hitherto the great tide of German emigration has been towards the States. One great reason for this is that there are already districts in the States populated by their countrymen, and, not only that, but by men who were their neighbors at home. Canada's hope of getting the best class of immigration from Germany lies in the same direction. As soon as the German settlers are settled here, and beginning to prosper, they will write their friends in the old land, and so start a movement towards Canada that will continue to grow.

GALLOWS CURSES.

Oaths on Their Lips.

GREENVILLE, Miss., July 22.—With curses on his lips, with eyes bloodshot and with the expressed wish that the people of Greenville perish in the fires of hell, Ashley Cocke died here today, With him, but silently, Tom Lauderdale also met his end. Both were convicted of the murder of Engineer G. M. Wray and were hanged from the same gallows and the swing of a double trap sent both men to their doom. The fatal trigger was snapped at 11,27 this morning. At 11.41 Cocke was pronounced dead. At 11.43 the pulse of Lauderdale ceased to beat. Both bodies were cut down ten minutes later and turned over to their respective families.

and turned over to their respective families.

Cocke died boasting that he would be in hell in a few minutes, and damning everything and everybody. He said that those who had planned his murder would meet their end and that \$11,000 had been deposited in a bank, \$1,000 of which would be paid for the death of each of the eleven men who prosecuted him.

The execution was witnessed by 6,000 people.

The execution was winessed by 5,000 people.

This morning before the time for the execution both men appeared defiant, Cocke especially being very abusive to everyone around him, while both cursed continually. After the death warrant had been read to the men in their cells, Cocke yelled through the window to the great crowd which had gathered outside to witness the execution: "Damn you, don't be impatient, we are coming."

tion: "Damn you, don't be impatient, we are coming."

When the sheriff and the doomed men mounted the scaffold Cocke again began to berate those about him, and turning to the crowd said: "It's all a plot to kill me; damn you all, damn everybody. I'm going to die like a man.

"I am killed for nothing, but I am the bravest man in the state of Mississippl. There is \$11,000 waiting for anyone who will kill the eleven men who made this plot. I will be revenged, for everyone of this eleven will be killed and no questions will be asked. They have murdered me, but revenge, revenge,"
Before he could say more the black caps were adjusted.
"Are you both ready?" asked the sheriff.
"Yes." yelled Cocks through the day. "I am killed for nothing, but I am

sheriff.
"Yes," yelled Cocke through the folds
of black. "Damn you people of Greenyille, go to hell all of you."
The trap was sprung and the men
dropped into space.

RUINOUS FLOODS.

KEOKUK, Iowa, July 22.—The crest of the Mississippi river flood is now at Quincy and by morning will be still further south. The Mississippi river fell nine inches here during the last 24 hours and there are no signs in Iowa rivers of any more flood approaching. A gradual fall of two weeks will end the flood in the vast domain south of here.

Several handred tenant farmers are absolutely penniless and with ao chance of an income this year. Each community seems to be taking care of its own refugees and no systematic plan of relief has been reached yet. The same conditions along the 75 miles of the Mississippi river on the Missouri side and a hundred miles of the Des Moines river lowlands.

BAY SHORE SUBURBAN SERVICE. TRAVELLERS' GUIDE.

Among the prospective improvements local C. P. R. service is the establishment of a suburban train for the ccommodation of the large and constantly increasing number of St. John people who are patronizing the Bay Shore as a summer resort. The scheme now being considered by the officials involves the running of a stub train from the ferry floats around to Fairville, stopping at Duck Cove, Bay Shore and other points favored by suburbanites and pienters. It is the idea to have a train leave Carleton every forty minutes so as to connect with every second boat.

The matter is only as yet under consideration. No decision has been reached and it is possible that the scheme may lay over for next year. But if the idea is favorably received by the patrons of the road, and the company can be convinced that the departure will be popular, there is a strong probability that it may be put into force without delay.
