OPEN EVENINGS.

WOULD FORM A JAPANESE COLONY IN WESTERN CANADA

A New Feature in Immigration Which Will be Introduced
Next Spring.

Canadians have admitted to participate with them, the virgin resources of their country, Britons, Americans, Icelanders, Norwegians, Swedes, Gallians, Italians, Germans, and Russians. Up to the present the Asiatic has not been an element in the land settlement. There are Chinese here, it is true, but they are practically confined to domestic services, and small trade. Whether for West or Asia, in the person of its most vigorous and energetic race—the Japanese—is a subject of interest amongst us as a settler, promising to become a permanent resident of the soil.

A scheme to bring this about is active in the mind of B. R. Nagatany, of Klot. In answer to inquiries Mr. Nagatany explained that his idea was to acquire a large tract of land in Alberta. "I had an interview with the commissioner, Mr. Griffin, and also Mr. Smith this morning," he said, "and we had a very interesting talk on the prospects of a Japanese colony in Alberta. Mr. Smith's advice to me was to go in for the government grant, but although I might be able to bring over many who would take up the homesteads, I rather prefer my own scheme of buying a large tract of land in the centre of Alberta—between 20,000 and 100,000 acres—owned by the C. P. R.

INTENSIVE CULTIVATION.
"As you know, probably, we are more adapted for intensive cultivation of the land. Our settlers would go in for wheat, mainly, like you, but we might also take up the growth of the sugar beet, fruit, all kinds of vegetables, and any other products which are profitable to cultivate. The farmers I intend to introduce will be carefully selected class agriculturists, who are able to do at home, but who wish to obtain larger opportunities for their efforts. If my plans succeed, I shall be back in the fall and take up the necessary land, and my first contingent will come over early next spring. I shall first try a company of about fifty, very carefully chosen farmers.

"At present you must understand, I am acting purely as a private individual. When I return to Japan I will submit my proposals to our government, and we will see what can be done. I may form a company to promote the scheme. I asked whether he had been in communication with the Dominion government in regard to Japanese immigration. Mr. Nagatany said "No." He had had correspondence with the interior department, but had never had any proposition for

them to consider. In his journey westward he intended to call upon Mr. Denbie, who controls the C. P. R. lands in the Calgary district, and possibly he might make some definite arrangement with him, and if successful, more will follow.

"Do you think this experiment will result in very much immigration from Japan in the future Mr. Nagatany?" "I think so," he answered. "I believe that, when once we have proved it successful, there will follow a very large immigration of our people. The Japanese are not very well informed about Canadian conditions, and this is what Japan has been wanting for some time. There is no reason why the Japanese cannot do as well as any other nationality. So far, we have not seen any of their emigrants taking up lands in the northwest, as people of other nationalities are doing. As far as climate is concerned, experience in the war with Russia shows that we can endure either heat or cold."

"Will your government give any financial assistance in promoting emigration?" was next asked. "I don't know," said Mr. Nagatany. "I am not intending to get any financial help from my government. All the men who come out will have money and will be able to be independent. I am going to bring the well-to-do. If the colony is founded, I shall always keep in touch with it and may myself become a Canadian in time."

In further conversation, the visitor explained that it was realized that much must be done on the farm, but later he thought some Japanese manufacturers might be established. For Canadian four he saw a good market in Japan; and it ought to become a great article of export from the northwest to his own country.

COMMERCIAL RECIPROCIITY.
"We can send silks, tea, mattings and fine art goods. Personally, I am looking forward to a prosperous trade," he continued. "As I said before, however, Japan does not know much about Canada yet; and perhaps, I shall be the first man in Japan to moot such a scheme as I have suggested.

Mr. Nagatany's preference for purchasing a tract of land is dictated by a desire to keep the Japanese together for mutual help, and he seemed to foreshadow the formation of a Japanese township in the heart of the settlement. The achievement of this, however, depends upon the success of his experiment which will probably be made next year.

SEIZE SMUGGLED LIQUOR.

Customs Officer Burnham Operates in Three Nova Scotia Towns.

DIGBY, N. S., Aug. 9.—H. B. Burnham, of the Dominion customs service, acting under instructions of Customs Inspector Fred L. Jones, has made important seizures of liquor in Kentville, Chester and Parrsboro, purchased from people who, it is alleged, smuggled it up St. Mary's Bay.

Several more seizures will be made in the near future, and will implicate prominent shipping men in Digby county. Evidence is now being obtained and the offenders will be tried under the criminal prosecution act.

P. E. ISLANDER TO JAIL FOR LIFE

WINNIPEG, August 9.—Alexander MacKenzie, a native of P. E. Island, has been sentenced to life imprisonment by a Minnesota court for killing John Stewart, a trapper, John Matheson, K. C. of P. E. Island, assisted in the defence.

THE WHIRLWIND OF TIME.

(Montreal Gazette).

Daron Komura when last he passed through Montreal was regarded by some as a beaten man. He had met Count Witte, Russia's representative in the Portsmouth negotiations, and had concluded upon terms less satisfactory to expect. By many Witte was being lauded as the great man of the meeting. Each went back to his country, and then to go down and out of sight, Komura to be criticized for a time by those who did not see into the future and then to be honored by his government by appointment to one of the highest posts in the diplomatic service. Komura's hour came latest, but it is most satisfactory.

HELP WANTED--QUICK.

When you want help, any kind of help, from a private secretary to a ditch-digger, please remember that nearly every everybody in St. John has an eye on the STAR WANT ADS.

A Star Want Ad will fill a reasonable want every time.

HELP SECURED--QUICK.

Advertising is, perhaps, of all other methods of making a fortune, that which is most certain in its operation.—S. R. Niles, Boston.

BOG IRON FOUND IN BRITISH COLUMBIA

One of the Biggest Strikes of Late Years Made in West by Prospectors.

VICTORIA, B. C., August 9.—Numerous letters have been received from the biggest strike of bog iron in British Columbia has just been made to the north of West Arm, Sustino Sound. Messrs Jacobson and Jackson are now locating the property, and report that the area is immense, and that the iron body on the West Arm, on which development work has already been done for a long time, is far from the extent of the new find.

WOULD EXPEL COLORED PREACHERS.

LONDON, Aug. 9.—It is being suggested that a small party of American colored preachers, who have been advocating the Ethiopian propaganda, "Africa for the Africans," should be deported from South Africa. The government has not yet taken any action, and it is a question whether it will. The agitation against the preachers has been revived by the recent trouble at Cape Town, for which they are held partly responsible. They have made no secret of their mission to use their efforts to secure black supremacy in that part of the world.

ENFORCES HEAD TAX.

ST. JOHN'S, Nfld., Aug. 9.—The measure requiring all Chinese entering the colony to pay a head tax of \$200 each, was put into force today by the colonial cabinet. The assent of the imperial ministry was secured before the tax was taken. The proclamation comes just in time, it is said, to prevent a scheme for the importation of five hundred coolies into the colony.

SEA VIEW COTTAGE, LORNEVILLE ST. JOHN COUNTY.

One of the loveliest places on the coast of the Bay of Fundy. Can accommodate permanent and transient boarders. The proprietor, R. W. Dean, will arrange to take guests from St. John and return when requested. For particulars please No. 11, Accommodation good, rates reasonable. A team meets every morning train from St. John at Spruce Lake Station. 9-7-11.

SPECIAL!

BALLAST WHARF IN A DANGEROUS STATE.
Not Safe for Persons to Walk On

Evidence to This Well Known Fact Hear at the Millery Inquest Last Evening.

The inquest into the death of Walter Milley, drowned at Ballast Wharf July 21st, was begun last evening. H. A. McKewen was present on behalf of the wharf, father of the deceased. The first witness was Russell Sturges, an employe of the Pender Mill. He had on the day of the accident caused the alarm to be given which brought the hoist wagon on a flat car. Walter Milley placed on the hoist wagon around trying to reascend him. The ballast wharf, he said, had been in a rotten condition for about two years. It had not been repaired for 5 years to his knowledge. The hole the boy fell through was about 4 feet long and 15 inches wide, and went right down to the mud, 20 or 25 feet below.

James Vincent, stanger on the ballast wharf, stated that he had seen the hole in the wharf. There had been some repairing done inside of two years. He was not aware of the existence of the hole through which the boy fell. He had reported the condition of the wharf to Mr. Ross and lumber was got ready for the repairing. There were about 7 or 8 holes in the wharf large enough for persons to go through. He had never seen an accident there before.

George Blake, district engineer of the police department, had received word of the lad being under the wharf and had telephoned the ladder truck to go to his assistance at once. To the corner witness said that no time was lost in giving notices to the different ladder departments.

Frank Murphy, a laborer, said he was informed of the accident and went up to Penders intending to ring the alarm. His evidence verified the report of the dangerous condition of the wharf.

John P. Killen, an employe of the Vulcan Iron Works, Wm. Gillette, Donald Allan, Wm. Pike, E. W. Rowley, laborers, were called as witnesses. Henry Milley, grandfather of the deceased told of finding the boy in the hole and his fruitless endeavor to rescue him.

Hugh Milley, father of deceased, said the boy was bright and intelligent, over 6 years old, and had good eyesight. The last witness was L. R. Ross, terminal agent of the I. C. R. The wharf, he said, was the private property of the I. C. R. It was in an efficient state of repairs for the purpose of the railway used it for. It was not safe for children. The north end of the wharf which was public had always been kept in good repair. The court adjourned till Friday, 17th inst at 7:30 p. m., when two more witnesses will be called.

A concern and its advertising cannot be separated any more than a man can be separated from his face—Walt

It is possible for your STAR Want Ads. to be productive of more results by wording your advertisement properly. For instance, in renting rooms the answers will be better and more numerous if you tell the size, price, direction, locality, accessible car lines, etc., than if you merely give the street address. Tell the whole story, and readers will be interested. Think before you write. Word your ad. carefully.

FRESH MILK.
Our milk and cream is cooled as soon as milked, by patent coolers, so that the animal heat is driven out at once, thereby improving the keeping qualities. We test all our milk and cream daily. Try some for whipping.
