SEWE WHEN ENDS

Interesting Letter from Corpera W. H. Snyder of Mounted Police.

(Cor. Kentville, N. S., Advertiser. Army Remount Depot, Durban, Natal, June 22nd, 1901.

Dear Mr. Editor-It is raining as it nly rains in Africa. Conseque am at leisure and shall try and get off a letter to the Advertiser. I, as you doubtless know, was transferred from our headquarters at Heidelberg, in the Transvaal, to Durban, along with five other Canadians, to overse the unloading and despatch of horse up country. So far we have sent up to come. I expect, however, to join my corps very soon, as Capt. Moore said as soon as our troop was supplied with horses he wanted me.

I went up country last week with a train load of Australian horses, leaving on Sunday and arriving at Herdelberg on Saturday. After we left Natal we could not travel by night. otony, as after we left Standerton our train, all but two links, ran off the track. The Boers had derailed us, but our engineer had noticed it, so, although too late to stop running off, yel we were going so slow no damage was done. I had to have all the horses en-trained, and with six Kaffirs drove

them to Voekrust. When I got to Heidelberg I found a great many changes. I was glad to find Tamont of Billtown back looking all right after his sickness. But a great many of the boys are always in ospital, some very ill indeed. Lockhart I did not see, as he was on guard, there when I had to start back. Captain Moore and Lieut, Willets of

Windsor are fairly idolized by the The troop started off as escort over a convoy just as I left. There has been a great shaking up in the squadron, which is called a troop, consist-ing of one captain, one lieutenant, a sergeant major, quartermaster ser and eighty seven troopers, four of whom are first class troopers, four econd class, and the rest third class troopers. Rates of pay for non-com

dissioned officers are: ergeant major .. ......\$2 74 a day Quarter master sergeant .. 2 52 Sergeants..... 2 40 Corporals ..... 228 1st class trooper.. .. .....2 16 2nd class trooper .... 192 3rd class trooper.... 1 68

This of course is clear, as everything is found. So you see the rate of pay is very good. To those who wish to indulge in the luxury of a wife, \$25 a month extra is allowed. The boys have formed football, cricket and base

ball clubs. It is very cold in the Transvaal now quite different from here in Durban, where some days are most awfully hot, yet this is African winter. saying he had been ordered to take his troop to Roodekop, so I guess the boys will soon get what a lot of them are looking for the said that he had occasion recently to look over the registry of births at a certain maternity home. In this home, from January to July there were seventeen ing her engines.

LONDON, July 28.—The British bark Lizzie Bell, Capt Whelan, bound from Newcastie, N.S.W., has been wrecked at Cape
Gwent, New Zealand, and twelve of her crew
are missing. The Lizzie Bell was built at
Sunderland in 1877, and was owned in Livercool to Roodekop, so I guess the boys
ing the many to form the born.

In this home, from January to
July, there were seventeen illegitimate
births. Of these children seven had
died within a short period, while, to
his own knowledge, two others of the
seventeen had died away from the ing for one thing, some long distractedly for it, in a sullen way, and others just "wish it" to happen as soon as possible, or sooner. The officer thinks of, and longs for the time to come when he shall once again be seated amongst his magnificence, his town and country houses, his club, his shooting boxes; when he shall again whirl with a charming partner on glassy ball-room floor, to the strains of a first class band in the dreamy waltz or the exhibarating lancers. "Tommy" longs for the return to his "old woman," his favorite "pup," his "kids." and his jovial, though, perhaps, noisy companions. If he has no "old woman," he thinks of his "girl." He remembers the "sprees" he had, the black eyes he got in certain "shindies," and those he presented to other

people, and he smacks his lips as he thinks of good, old English ale and he longs for dear old England again.
The old Boer who has surrendered and who sees there is no hope for his side thinks of his two-roomed ho on the farm, its low ceiling hung with drying tobacco; he remembers ald black cow he bought from some Kaffir for a covereign and that he had been offered ten pounds for just before the war; the stone wall round his lit-tle garden, and his old brown pony that could keep up his one easy, gen pace, hour after hour, mile after n without seeming tired. He thinks of when he was at home with his old "brouw" and half grown children smoking away in dreamy bliss hour after hour, and drinking coffee with all his friends, and he shakes his head mournfully as he realizes that some of his friends will pay him

more calls. The native wishes the war over, he feels it a long time since his cattle, or horses and sheep came safety, a mile or more away from his kraal. His crops may be burned by into the hands of the Dutch, and vice versa. His kraal may happen to b in the firing line at any moment. In fact everyone is sick of the war. For my part I should not be surprised to see it last another twelve months. But I must close this rambling lette Horing dear old "King's" is he its full share of prosperity, and that Lockhart, Lamont and myself may in the future return safe and sound, I

Most sincerely yours, CORPORAL W. H. SNYDER 17th Troop, S. A. C., C Division. Herdleberg, Transvaa PREFERS STONE BRIDGES TO

The engineering staff of the Penn-yivania railroad has determined that tone arch bridges are preferable to teel bridges and President Cossatt has approved plans for the construc-tion of new stone bridges and via-ducts, which will cost in the aggre-gate \$10,000,000. The Panhandle division of the Pennsylvania railroad is to stone structures whenever occ arises for the reconstruction of the bridges. The Panhandle, it is said, of his age.

Awful Increase of Illegitmate Children-The City Has Thirty-four Baby Farms.

TORONTO, July 26,-Rev. P. Clifton

Parker of the First Avenue Baptist church created a sensation yesterday afternoon at the annual picnic of the eastern branch of the W. C. T. U. by an address in which he drew attention to the awful increase of illegitinacy in the city, and to the way private maternity homes were conducted. Mr. Parker said that he had occent. of deaths. In maternity homes inder the supervision of the Medical Health Department Mr. Parker says was originally intended by her, whatthere was only a small percentage of ever action has been taken or propos-deaths, and he thought the time had ed by her has been with a view to make a tremendous agitation to get municipalities to place all maternity omes within their bounds under the supervision authorized by the Mater-

nity Act.
The suggestion that there is an exessively heavy mortality in baby farms in Toronto is indignantly re-pudiated by Dr. Sheard, the medical ealth officer. There are 34 farms within the corporation, and the reords kept show that 130 children were received in them last year, of whom 14 only died. The mothers of three for sook them, and 15 were adopted. The remainder are cared for by the mothers. The baby farm referred to by Rev. P. C. Parker, in which nine children out of 17 received last year died, is not in the city, and Dr. Sheard says it should be forced to come in. so that the city officers could after it closely.

THE WONDER OF THE WORLD. When Artemisis and Mausolos rode
Out of the Carian gate, their charlot wheels
O'ercame the world, till its great spaces
flow'd
Like air away; while on their horses' heels,
Like the one cloud of whitest fire
That brings the god again,
Their charlot hurl'd, to match their
'wift desire;
And so went quickly from those Carian
men.

Went, but not all: it left pale radian Went, but not all: it left pale radiance there:
Love's perfect apparition cannot fade.
Their passionate chariot still upon the air Hung like a cloud, and swaying by, still stayed.—

As if each chang'd and fading ray.
Retook their splendor, till their train, and they
That gave it fire, still rode by radiantly.

For Artemisia, when her dear lord died, Drank his burnt ash, solv'd in a cup Drank his burnt ash, stavu in a wine, wine, wine, pride
Of their undying Love, and cast a shri
The world's last wonder, on the air
To tell in marble rhyme
What Artemisia and Mausolos were,
Who Death e'ersway, though dead,
conquer Time.

This, the world's wonder, Artemisia gave:
Because she loved Mansolos deathlessly.
So come, all Lovers! to Mansolos' grave,
And say,—'All fades; but Love the Mystery
(Since spirits master Time) fares unafraid
To its supreme abode;
Past Fate, and Night, and Death, the
darker shade,—
As Artemisia and Mansolos rode!'
-Ernest Rhys, in Harper's Magazine for
Assust.

A young lad entered a butcher's shop town in England and when the propriet appeared gave a rather small order. "Y don't buy as much meat as you did a ye ago," remarked the butcher. "No," if sponded the boy, "father's become a veg tarian!" "My lad," came the grave reto 'you give your dad warning from me, thas a rule wegetarians come to a violant en Tales a buillock for instance—'e's a weg tarien. What's the result? Why, e's cont sudden, in his wery prime!"

THE GIFT NOT REVOKED. To the Editor of the Sun:

Sir-In your issue of Saturday appeared a paragraph from your St. Andrews correspondent, in which the statement was made that the gift of the manse which had been donated to the Presbyterian congregation by a Montreal lady had been revoked by her. As the statement is calculated to do a grave injustice to, and wound his own knowledge, two others of the erous woman, while also reflecting seventeen had died away from the upon the Presbyterian body in St. Antonne, making a total of nine out of drews, I feel it my duty to ask you to seventeen—an average of over 50 per contradict it. So far from the lady in securing the manse for all time for the use of the above named denomina-300 in cash for the property, but she has also expressed her willingness to assume whatever indebtedness there may remain upon it, in order that itmay be preserved to the congregation for ever. (Negotiations looking to this end are now in progress.) Surely such unselfish and regal generosity was deserving of better treatment than that accorded by your correspondent, jumped to conslusions that we wholly unwarranted.

Thanking you for the opportunity you have given me to remove a false impression, and regretting that the matter should have received publicity in the shape it did, I remain,

Yours. R. E. ARMSTRONG, Chairman of Trustees Presbyterian St. Andrews, July 29, 1901.

MOSSES FROM NORTH SHORE, P. E. I. (Charlottetown Examiner, 27th.)

The Examiner was privileged yesterday afternoon to see one of the most interesting and unique collections of mosses that was ever made in this part of the world. Professor Lester Gill of Queen's University, Kingston, has been spending a three weeks vacation at Stanhope. During that time he has collected and mounted in the most perfect manner one hundred and fifty specimens of the North Share masses. North Shore mosses. To the casual observer it is almost incredible that such beauty exists all along our shores. Professor Gill estimates that he has thirty or forty varieties, and on his return to college next week hopes to have them all named and classified.

FULLER'S BLACKBERRY CORD-IAL is a remedy for all Summer Com-plaints in Adults and Children-in use over twenty-five years and thoroughly reliable. At all dealers at 25 cents a
