Every desert was the home of the serpent's throat. But every treat of the water viper. Every hillside had for the traveller the warning hiss or rattle. Even unto this day many of the countries of the east are overrun the two hind legs of the toad and by bisonous reptiles. In India alone over 50,000 inhabitants annually die from poisonous snake bites. The deadly serpents can multiply al-

most indefinitely in the wild, undeveloped region of a virgin soil. Humboldt, the celebrated German scientist, gave this description of one of his travels: "In the savanna's of Essequibo, in Guiant, I saw the most wonderful and terrible of spectacles. And in this discussion shall not touch on the power of the allot box. That is a theme in itself. The sure antidote for the poison of the adder of intoxication must be found Christians, first and last and all for the time, in the blood of Jesus Christ. It is right to use human agencies for the cure of inebriety, but I believe human agencies will always fail unless. they are blessed by the divine powerby the power of the Holy Ghost. As a pastor and preacher and temperance worker I have personally tried to aid in the rescue of many drunkards. I have helped send some to the reformatory institutions. I have taken them into my own home and bought them nedicines from the drug stores. I am free to confess that all these human agencies failed exceut when these vicadder tims of strong drink have thrown themselves into the arms of God and clung to Jesus Christ as their only Saviour. Oh, ye victims of the wine cup! Oh, ye helpless men and women who have head. Divine re-enforcement cold winter night warmed the dormant serpents into life. They came forth into the room of the sleeping couple. They crawled up onto the bed. They buried their cruel fangs in the flesh of man and woman alike, and the nup-tial couch became the bed of death. When a husband looks upon the wine can save you if you will live so close to Christ that Christ can and will live close to you.
