

COURSE OF STUDY.

The object aimed at is to secure a good general education for all matriculated students, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the sixth term of residence. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B. A. are permitted to attend the Lectures of any of the Professors, subject to all the usual Regulations, and can, moreover, under certain conditions, proceed to Degrees in Science and Engineering.

The schemes of Responsions and B. A. Examinations will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

Numerous scholarships, Prizes, and Honorary Distinctions, (which are more fully referred to elsewhere in the Calendar), are open to be competed for by students in the several faculties, the principal of these being the following:—
