WILLARD'S CHANCES ARE SAFE

The heavyweight class is still suffering from a dearth of talent. Judging by the outcome of the Smith-Weinert bout it will be some time before any of the contenders can be taken very seriously.

Perhaps in time Weinert will develop a wallop, but that is very doubtful. He shows little signs of promise in that direction.

Although somewhat under a cloud at present, owing to his failure to suppress the veteran, Jim Flynn, in a more convincing manner, Coffey has more real fighting ability than the Newark youngster.

On the other hand Weinert has one set form of attack. He gives the impression that when he meets an opponent with a good defence for a left hook he will find himself at the end of his resources.

The first appearance of Tom Cowler, Corbett's entry, who is in New York for bouts, will be viewed with interest in the hope that the newcomer will add strength to the class.

Reports from France that Georges Carpentier, who still is safe and sound, hopes to pay America a visit if he survives the war would be highly interesting if there were an immediate prospect that hostilities would cease.

There is little doubt that if Carpentier had remained in the ring he would be regarded as Willard's most dangerous rival at the present time.

YANKS ASK FOR WAIVERS. New York, July 14.—It was announced today that Manager Jim Seaman of the Yankees has asked for waivers on pitcher Marty McHale, Pete Daly, the former Athletic, and Ensign Cottrell, the young southpaw who was purchased from the Braves early in the season.

WHAT'S WRONG WITH BASE BALL GAME?

An editorial in Monday's issue of the Ottawa Journal has the following to say on "What's wrong with baseball?"

What's wrong with baseball? From the four corners of North America comes the query—and little wonder.

The International League has all but gone smash, many major league teams are facing financial disaster, most minor leagues are playing before empty stands, and many clubs are slated for the wayside with the season not half over.

Cornelius McGillicuddy, better known to baseball as Connie Mack, greatest leader of them all, answers the question in one word—"commercialism."

Mr. Mack says that Mammon has eaten the heart out of all the sport that was left in baseball, the spirit of the old days when millions whistled "Casey at the bat," has fled, and the fans, realizing this, have quit the bleachers in disgust.

Perhaps also another reason for the present state of baseball is that too many of the fans are more interested in the greater game of war.

Perhaps also another reason for the present state of baseball is that too many of the fans are more interested in the greater game of war. And if that be so in Canada, there's no cause for undue worry.

THE BIG LEAGUE OUTLOOK

It is not probable that the American League race, judging from the first three months on the "two circuits," will furnish the exciting finish that may be promised in the National.

Perhaps in time Weinert will develop a wallop, but that is very doubtful. He shows little signs of promise in that direction.
