TRAINING LITTLE CHILDREN (—LVIII)

Suggestions by mothers who have been kindergartners. Issued by the Bureau of Education of the Department of the Interior and the National Kindergarten Association.

Being a good mother requires understanding, devotion and often sacrifice of many pleasures.

As a reward such a mother has healthy, happy and more intelligent children.

By Mrs. Isabel S. Wallace. The education of young girls should prepare them for the greatest work in the world—wifehood and motherhood, and I wish they could all have courses in home-nursing, domestic science and kindergarten training.

My training as a kindergarten taught me many things, among them keeping strictly to a schedule; so my baby was fed, bathed and put to bed regularly. Habit is formed early in life, and can help to make or mar character, depending on whether habits are good or bad.

This carrying out of a regular schedule was not always easy, for it meant sacrifice of many pleasures. But I wanted to be a good mother first of all, and I was rewarded by having a happy, good baby.

Even now at six years old there is no fuss at nap-time or bedtime. One of the things taught unconsciously in the kindergarten is regularity and promptness, and these can be taught in the home just as well. Long before baby could talk she knew the little play for the fingers, "Here's a ball for baby."

NOAH'S LANDING PLACE

The New Republic of Ararat is a Province of Armenia. The recent appeal made by the newly established republic of Ararat for recognition will be better understood, at least geographically, when it is explained that the region in question is a province of Armenia.

It takes its name from the mountain on which the Ark made a landing after the Flood—Ararat meaning Noah's Mountain.

The whole world, according to Bible story was submerged during the period of the Deluge and Ararat's topmost peak was the first dry land to appear above the waters, for the simple reason that it was the loftiest—in Armenia at all events.

As viewed to-day it gives a notion of the depth of the Flood, inasmuch as the peak is more than three miles above sea level. It is dome-shaped and its slopes for 9,000 feet from the top are covered with everlasting snow and great fields of glittering ice.

The climb down must have been rather difficult for Noah, his family, and all the animals disembarked from the Ark. As for an ascent to the top it was formerly believed to be impossible. The Armenian monks declared that remains of the Noahian bark still existed on the summit, and that by reason of their sanctity a supernatural influence forbade approach.

Nevertheless, in September 1829 a bold climber Dr. Johann Parrot succeeded in reaching the top of Ararat and on coming down stated that he had found not even the keel of the Ark up there. Since then the feat has been repeated by several other adventurous persons.

Ararat come pretty near to being the most beautiful mountain in the world. It is a long-extinct volcano, standing almost isolated save for a lesser peak, called Little Ararat which (really part of it) is a cone of exquisite symmetry—an ideal volcano of a type plainly recognizable as an ash pile formed about an eruptive chimney.

Below in the valley or Araxes was the Garden of Eden, according to Armenian tradition. At Marsand, in that neighborhood, was (so the monks say) the burial place of Noah's wife Ar Argeni, a village near a great chasm that runs into the heart of the mountain, Noah planted the first vineyard.

A temperance workers' convention has been called to meet in Montreal today to formulate plans to assist in the carrying out of reform measures after the passage of the law by the Quebec legislature designed to provide the machinery for the enforcement of prohibition.

When the steamship Mauretania leaves New York today, she will inaugurate the New York-Southampton service of the Cunard Line, being the first of the company's vessels to use the Channel port instead of Liverpool, the British home port of the Cunard Line service, since 1840.

That Vassar College has wiped out its debt by a campaign lasting only four months conducted in the midst of multitudes of other financial drives and fifty per cent of the alumnae contributed to the fund.

That newest neck effects show a collar that goes up close at the back while the front leaves the throat open.

That the craze for black lingerie in Paris is responsible for the black brassiere a favorite one being of heavy black.

Good Rubbers Mean Foot Comfort, Shoe Economy and Health Protection

Why are they comfortable? Because in the Dominion Rubber System brands, you can get just the size and shape of rubbers to perfectly fit every pair of shoes.

That is one advantage of having a great organization like the Dominion Rubber System to study your needs. With factories and service branches all over Canada; and with experts in constant touch with the leading shoe manufacturers, the Dominion Rubber System is able to make and supply your dealer with every style of rubbers required.

How do Rubbers economize on shoes? They protect shoes against slush and rain—make shoes wear longer and hold their shape better—and enable you to wear old shoes in bad weather.

Is it necessary to speak of health protection? With the epidemic of "Flu" so vividly in mind, and the warning of physicians to keep the feet dry, surely no one will run the risk of going without rubbers on wet days!

When you choose rubbers, ask for one of these brands:

"Jacques Cartier" "Merchants" "Maple Leaf"
"Granby" "Dominion" "Daisy"

These trademarks guarantee quality; and behind these trademarks is the Dominion Rubber System, a power of protection to every pair of these guaranteed rubbers.

VIVIAN MARTIN IN "MIRANDY SMILES"

A Paramount Picture

Scenario by Edith Kennedy Directed by William C. De Mille

Mirandy did the laundry for the organist, and the organist, being a nice young fellow, played a bit of music to her—and then Mirandy smiled—say, it's queer how peaceful and romantic a church is when there's nobody but the organist "practicing."
