Dear Mr. Rowell:

Very many thanks for your thoughtfulness in sending me copy of your book on "British Empire and World Peace." It has not yet arrived but I am expecting it daily. I think it was an excellent idea on your part to compile a record of your own work and of the inner history of the subject. You may be sure I appreciate highly the compliment of being presented with a volume and will study it with great interest.

Yours very truly,

Honourable H. W. Rowell,
