Three Jockeys Were Severely Disciplined at King Edward Park Races Yesterday

CONTEST FOR BIRKS' TROPHY

International League Has Tided Over Worst Phases of Its Season—National League Has Adopted a Twenty-one Player Limit.

At the King Edward Park Jockey Club's meeting yesterday, one jockey was ruled off, while two others were suspended for the meeting. Walsh and Hulcoat were the two to draw suspensions, the former for rough riding and the latter for disobedience at the post. Charlie Grand, who suffered the major penalty, was disciplined as a result of the poor ride he gave Fort Monroe, a red hot favorite, in the fifth race on Saturday's card when he failed to even get in the money.

Having successfully tided over the worst part of the season there is little danger now that the International League will not finish the campaign with colors flying. President Barrow is, however, kept busy denying the reports spread by the enemies to organized ball to the effect that other clubs in the league, notably Buffalo and Jersey City, will be transferred. At the latter city the attendance has shown a marked improvement of late, due to the club's good showing under the leadership of Joe Yeager, and it is in the field to stay. Buffalo Internationals are in a better position than the Reds in that city, and if any switch is made it will not be Barrow's representatives who will move. Harrisburg has taken kindly to the Class AA brand of baseball, and the Newark Indians will remain there for the balance of the season, at least.

The lack of ditches was one of the biggest drawbacks of the Ontario Bowling Association's tournament at Niagara-on-the-Lake, and it is hoped that the officials of the O. B. A. will see that they have ditches on the greens where the tournament is held next year.

Richmond annexed the final game in the series with the Royals at that city yesterday by a score of 7 to 4 and the latter to-day commences a three-day series with the Skeeters. Jack Dunn's Virginians drove Richter from the mound, scoring seven runs. After allowing the home team to obtain a six-run lead the Howleyites opened up a fusillade of hits off "Buck" O'Brien's offerings in the ninth, driving in three tallies. Morrisette was sent in to relieve O'Brien with the bases full and stopped the slaughter.

This is the last season for the syndicate ring at King Edward Park. The mutual system will be installed there next year, according to the announcement of Manager Holman. Being a half-mile track, it is proposed to make the commission to be deducted ten per cent, instead of 5, as at the other courses.

Bobby Wallace, Ban Johnson's newest umpire, likes his new job mightily well. Bobby recently became an ump. after serving twenty-two years as a player. He is getting away with his new duties in first-class style.

The Westmount Lawn Bowling Club has chosen four strong rinks to meet the representatives of the Prescott Club to-morrow evening in a contest for the Birks' Challenge Trophy. The skips will be Messrs. W. Brown, C. P. Creamer, A. G. Gardner and A. W. D. Howells. The members of the M. A. A. A. Lawn Bowling Club will be particularly interested, since their challenge is the next in order, and they will therefore meet the winners of to-morrow's fixture on July 24.

The National Baseball League has adopted a regulation making the player limit for each club 21. No player under suspension will be included in the list of "disabled players," for whom other players can be substituted, but the rule has been made sufficiently elastic to enable a club not to be crippled in playing strength through any of its team numbers being injured or rendered useless from a playing standpoint through illness.

It is reported that J. W. Goldblatt sold the two-year-old racer Brizz to J. W. Schorr for \$15,000. He will likely be sent to Saratoga to join the Schorr horses.

Every bowling tournament held in Canada so far this season have been piling up record entries. The Granites in Toronto had over 50, Burlington 85, and the O. B. A. 81. Out of the Burlington entry fully half of them are Toronto rinks.

Heard Around the Ticker

The Quebec Railway, Light, Heat and Power Company, whose annual statement appeared yesterday, has had a somewhat checkered career. It was one of the mergers put through during the period when mergeritis was epidemic. The company was incorporated in 1909 as a consolidation of several light, heat and power companies operating in the city of Quebec and neighborhood. The company has an authorized capital of \$10,000,000, of which \$9,999,500 is outstanding, and \$10,000,000 bond authorization, of which \$8,341,000 are outstanding.

The company has not paid any dividends on the common stock since 1912, the last payment of 1 per cent. taking place on January 15th, 1912. The following shows the gross earnings and surplus for the past few years:

	1910-11	1911-12	1912-13	1913-14
Gross	\$1,280,000	\$1,415,000	\$1,524,000	\$1,531,000
Surplus	62,800	15,000	73,000	147,000

The following shows the high and low of the stock for a period of years:

	1910	1911	1912	1913	1914
High	61	66	57	21	16
Low	34	33	16	10	12

NEW YORK PRESS COMMENT

SUN.—Although there were indications of no little uneasiness among speculative holders of stocks before the opening of the market yesterday, and although there was some early weakness the course of prices proved a disagreeable surprise to the traders who had been operating bearishly for some time past.

The Stock Exchange session ended with all around strength following a firm recovery during the greater part of the day, which was emphasized by aggressive general advances in the last hour. Closing gains ranged all the way up to 10 to 15 points among specialties while the average rise was of substantial proportions.

TIMES.—Some things in yesterday's market suggested that securities not held in any quantity on the other side were being favored over those which might be sold in large amounts by European investors but decided strength was not confined to issues with only a home market, a position which, under existing conditions, contrary to the usual viewpoint, is regarded as an advantage rather than a drawback. Thus United States Steel gained over 1 1/2 points, although a large amount of it is still held abroad despite a decrease of over 11 per cent. in the foreign holdings of this stock from the time of the outbreak of the war up to March of this year, and despite further liquidation since the last figures of the stock holdings were compiled. Some of the war stocks stepped forward into positions of great prominence in the day's dealings but vigorous advances were also recorded in issues which do, and as a matter of fact must depend in the main upon home business for an increase in their profits.

NEWS OF WORLD TOLD IN BRIEF

The German Armoured Cruiser Konigsberg has Been Destroyed in the Rufiji River

COL. MEIGHEN BACK

Attempt Life of Sir Cecil Spring-Rice—Many Answer Lloyd George's Call for Munition Workers—New German Air-Craft.

An announcement has been made by the British Admiralty that the armoured cruiser Konigsberg, which, after Falkland Islands fight, took refuge in the Rufiji river, has been destroyed by monitors in operations extending from July 4 to 11. The position of the vessel was located by air-craft but it was hard to reach, being surrounded by jungle.

"I send you my congratulations and the admiration of my soldiers, who have carried the badge of Canada into the battlefields of Flanders for liberty." This message was cabled to Gen. the Hon. Louis Botha, by Major-General Hughes, Minister of Militia and Defence, from London, who fifteen years ago met the South African premier, as a foe.

Col. F. S. Meighen, of the 14th Battalion, C. E. F., was given a hearty welcome, when at half-past six yesterday evening he returned from the war to Montreal. Yesterday a cable was received at Militia Headquarters with the information that in recognition of his services at the front, Lieut.-Col. F. S. Meighen had been promoted to the rank of full Colonel.

The German army aircraft department has just completed giant aeroplanes of a new type, according to the London Daily Mail's Basel correspondent. The new machines will carry 20 men each. They are of a tri-plane type and mount four machine guns. They have eight motors and four propellers.

After upwards of a fortnight's work, the six hundred bureaux which were opened when the Minister of Munitions, David Lloyd George, gave labor the opportunity of voluntarily enrolling as munitions operatives, closed yesterday with a total registration of ninety thousand men. Registration hereafter will be carried out through the labor exchanges. More men are needed.

A special conference of the South Wales Miners' Federation has passed a resolution announcing that unless the mine-owners grant the full demands of the men for a new wage agreement they will quit work Thursday. This decision, which affects 42,000 miners, was adopted after the delegates had debated the question for many hours.

Sir Cecil Spring-Rice, the British ambassador to the United States, was riding in an automobile which six men attempted to hold up on the night following Frank Holt's attack on J. P. Morgan on July 3 last. It was revealed here last night, as a result of a complaint made to the police, James Patterson, a chauffeur for Mr. Morgan, who was driving the car, notified the authorities, the police say.

General Botha, premier of the Union of South Africa, has replied as follows to Lord Kitchener's eabled congratulations on the conquest of German Southwest Africa: "I most cordially thank you for your kind congratulations, which are highly appreciated by me. I hope that soon many of my men here will take their share in the greater task in Europe."
