COMPLETE AGREEMENT REACHED BY POWERS IN BALKAN TROUBLE

all Danger of War Has TEDDY WILL BE Passed—A Supplementary Note

Servia Will Renounce Prof. Starr Seems to Have Right to Bosnia and Herzegovina

Solution of Crisis Received in St. Petersburg With Rage and Shame

LONDON, March 28 .- London is the only capital where official confirmaof the settlement of the Balkan risis is lacking. The British foreign ffice late tonight, according to the announcement, had not been informed that Austria had accepted Sir Edward Grey's formula for the declaration which Servia is to make to the adminstration at Vienna, but it was fully cannibals. To survive the dangers expected that Austria would accept, and no surprise was expressed at the

While Foreign Secretary Gray has have scored a great diplomatic victory over the members of the triple on-

It is understood that in the declaraion agreed upon Servia will announce that she has no right with regard to Bosnia and Herzegovina; that she is ready to live on friendly terms with Austria and will demobilize at once. In return Austria is to make generous conomic concessions to Servia.

VIENNA, March 28.-A complete agroement has been reached by the powers with regard to the steps to be taken at Belgrade on the basis of the sals made by Sir Edward Grey, he British foreign secretary, to Baron Von Aehrenthal, the Austro-Hungarian minister of foreign affairs, for the setlement of the difficulty between Ausria and Servia. The representatives the powers at Belgrade tomorrow

will advise Servia to make a declaration to the administration at Vienna, supplementary to Servia's note of Mar. In this note Servia referred Austria to her previous note to the po ers, dated March 11th, and in the latter note Servia, while withdrawing her question of the annexation of Bosnia and Herzegovina should be regulated

by the powers. In addition a complete agreement has been reached with respect to the abrogation of article 25 of the Berlin treaty, and the suggestions of Austria on this subject will be communicated to the signatories of the treaty. ST. PETERSBURG, Mar. 28.- The

solution of the Balkan crisis has been receved here wth rage and shame rather than with a feeling of relief, but the press and chauvinistic public, which blames Foreign Minister Iswolsky for the surrender of Slav interests, without considering the circumstances which have dictated the Russian policy.

Papers of all shades of opinion publish leading editorials assailing M. Iswolsky in the most virulent fashion and the general indignation has reached such a pitch that the position of the present foreign minister is seri-

All factions of the government have decided that it is necessary to make very sacrifice to put Russia on a realized that it is now in the power of Austria to precipitate a crisis at any convenient opportunity. The military will be put on an increased footing to the very limit. Another big loan is mentioned as a possibility as soon as it can be made opportunely. Large sums are needed for the rearming of the infantry, the rifles now used being antiquated. PARIS, Mar. 28 .- The reverse inflict-

ed upon the Anglo-Franco-Russian alliance by the Austro-German combinathe Balkan has created much bitterness here. French diplomats hold that M. Iswolsky, the Russian foreign minister, is largely responsible, charg-ing that in order to vindicate himself he made a deal with Baron Von Achrenthal at Buchlau, and secured the privilege of directing the negotiations on the ground that Russia was predominantly interested in the Balkans.

NEW YORK, March 28 .- The anthracite coal operators who have refused to recognize the United Mine Workers of America as an organization officially representative of the mining em ployes, today issued a statement setting forth their attitude on the point at issue. The statement, which is issued on behalf of the operators' com mittee of seven, says:

"When the cemand is made trat the anthracite operators shall enter into a contract with the United Mine Workers of America it is pertinent to ask what has been done by this organ ization either as a whole or in the anthracite region to carrry out the plan proposed by the strike commission of 1902. This commission, appointed by footing to defend her interests as it is the president of the United States, considered thoroughly the constitution and character of the union and expressed their opinions about it with complete frankness. The commission said distinctly that the constitution of the United Mine Workers of America was not such as to encourage the operators to make a contract with it and ertain changes that night make satisfactory trade agreements possible were ecommended to the mine workers. During the six years elapsed since the commission did its work the mine workers have taken no steps to carry

out these recommendations.
"The commission decided against the demand for a contract between the oprators and the union and gave at length its reasons therefor. It criticised various features of the organization and said: "The present constitution of the United Mine Workers of America does not present the most inviting inducements for the operators to enter into contract relations with

"Following this statement the commission made definite suggestions, one of which was that a separate anthracite department 'would remove some of the serious objections' then existing. "Other practical suggestions were made. The mine workers have made no move to adopt any of them. By

not doing so they have failed to do their part in carrying out the object of the strike commission—to establish the relations between employers and the wage workers in the anthracite elds on a just and permanent basis.

FIRE CAUSES PANIC

Guests Threw Their Luggage Out the Windows and Climbed Down to the S'raet.

AMHERST, N. S., Mar. 29.-At 1.30 this morning fire broke out in the lower flat of the Dufferin Hotel, Oxford, N. S., and while little damage was done by the flames, the smoke, which was exceedingly dense, penetrated to the upper part in great vol umes, causing much excitement among the large number of guests who occupied the uper flat. These in their night attire rushed for the door at the balcony, many of them throwing their belongings to the street below and climbing down after them, it being impossible for them to get down to the lower floor owing to the smoke. There was some delay in reaching the fire by the firemen, but soon after their arrival the fire was put out, the principal damage being by smoke and water.

Prices Moving To- Means Great Increase ward Higher Level

CONFIDENCE FELT

Securities for Better Prices

NEW YORK, Mar. 28 .- Prices of stocks moved last week irregularly and haltingly towards a higher level This happened to the accompaniment of expressions of discouragement from various sources at the slow rate of progress of business improvement and the small apparent prospect of early revival. While the seeming discrepancy of the action of the stock market received some explanation in the tech nical conditions ruling it, the shaping of the price movement upward was impressive an index of proved reliability of improvement to come in the general business situation. While the conditions reported from the various trade channels as making for discour agement were not questioned, the action of the stock market was such as to suggest that they had been already been accounted for in that medium leaving room for assuming an outlook forward to the coming betterment, of which the expectation is universal. While the character of the operations in stocks gave no clear in- of charcoal, a chemical of little value, dication of active steps based on this expectation of ultimate improvement. there was a notable power of resistance, which argued a confidence in ex- | \$39, a yield of \$80 fro m\$7.50 of raw maemption from influences of depression for better prices. It was this that made difficulties for the professional bears who had sold stock short in anticipation of a period of liquidation to

Opinions of the accredited authorities in the iron and steel trades were that the lowering of prices which has occurred has failed to stimulate any effectual demand for products. The week was filled with reports of intended further cuts in prices, of plans for lessening the production by shutting down of mills and a reduction of
