THE DAILY COURTER, BRANTFORD, CANADA

PAGE THREE

WEEKLY COURIER (16 pages)-Pub lished on Thursday morning, at \$1.0 Coronto Office: Suite 19 and 26, Queer City Chambers. 32 Church Street, To routo. H. E. Smallpeice, Representative THE BRANTFORD COURIER LIMITED Saturday, April 5, 1913 A PARALLEL MARKET CASE

The Courier has from the first con-

and here is the report from the Toronto Globe:-

"St. Patrick's Market, aged sc. enty-six, is to stay. The city's attempt to get permission to use th old landmark for other than mar ket purposes failed, and civic or ficials who attempted to have the 'St. Patrick's Market Trust' ex tinguished were told yesterday at a meeting of the Private Bills committee of the Legislature that "they would have been called dishonorable men if they had been private parties." Mayor Hocken, Controller

Church and McCarthy, Corporation Counsel Geary and City Solicitor Johnston who appeared before the committee, explained that the property was given to the city in 1837 by D'Arcy, Boulton to be used forever as a public market. but as it was no longer useful as a market they desired permission to use it for other civic purposes As a result of the refusal of the Private Bills Committee to grant

the city's request, it is probable the old building will be torn down and a modern structure to be used as a market erected in its place That which happened in the case o

Toronto would, without any doubt. occur in the case of Brantford. The plain thing for us to do is t follow the example of the Queen City and enter upon necessary improvements

COST OF LIVING.

In presenting the merits of the Metz "Twenty Two" to the prospective purchaser of a Roadster Car we are happily in a position to avoid generalities, and to offer for your consideration, instead, specific facts that are of the liveliest interest.

The Metz "Twenty Two" is driven by a four-cylinder, water-cooled motor, and is one of the easiest-riding, smoothest-running cars on the market. It will climb hills faster than any other stock car built, regardless of its horse-power or price. It has a torpedo semi-enclosed body with centre control, thus leaving both sides of the car clear of encumbrances and open to convenient entrance or exit.

It is fitted with extension folding top and specially designed wind shield, with side curtains, clincher tires of best quality, Bosch magneto, dash lamps, gas lamps and gas generator, horn bump, tire and tool outfit, complete for \$600.00. "Metz Special" \$560.00.

Owners of large cars would find one of these small ones a great con-venience in saving the large car many a trip in slush and muddy weather, and for quick work at all times.
