JUST A WORD

about
Peter's "Brotherhood" Overalls

They are the best Union Overall on earth, because nothing but the BEST materials throughout are used; the cut is most liberal, the work neatest and best, with every useful improvement. There are no "Seconds."

They are made in the best grade only; are sold under a positive guarantee.

They are dependable always, and will give the most of comfort, neatness, satisfaction and service.

They are made by the only BROTHERHOOD man in the Overall Business.

In point of quality, as well as in principle, the Brotherhoods are the kind to wear.

Look for **BROTHERHOOD** on the Buttons and the name **PETERS** on the Size tickets.

Subscriptions to the Stock Issue

—OF—

Canada Labor Publishing Co

ARE NOW INVITED

The organization of the new joint stock, limited liability company, having for its object the printing and publishing of a newspaper, to be devoted exclusively to the interests of Organized Labor, has made all necessary progress this week, and the stock subscription list is now open.

The Stock will be subdivided in Shares of \$1.00 each, and it is placed on the market at an attractive figure. The first block of these shares should include amongst its takers those who wish to invest in something that will in a short time have an intrinsic value greatly in excess of the investment.

For full particulars apply to C. W. LUNN, of

W. N. GOODWIN,

Secy-Treas. Federal Labor Union, No. 6

Truro, Oct. 5, 1912.

ENLARGING SCOPE OF EXPERIMENTAL FARMS.

Hon. Martin Burrell Makes Some Important Changes.

Since Hon. Martin Burrell has assumed office as Minister of Agriculture, he has been devoting a great deal of time and attention to reorganizing the experimental farms throughout Canada and to making them of more real value to the farmers.

The work of the Central Experimental Farm at Ottawa has been strengthened by the addition to the staff of a field husbandman, an animal husbandman and an agriculturist. A specialist has also been appointed to take charge of forage plant work.

HORSE BREEDING.

Some additional work has also been done along the line of investigating horse breeding and the feeding of steers, with a view to giving information as to the relative value of the different breeds of cattle and of feeding in profitable beef production. Small herds of Holsteins and Jerseys have also been added to the list of breeds maintained so that representatives of all the better known dairy breeds of cattle kept in Canada are now to be found at the Central Experimental Farm. By these additions to the staff, it is hoped that valuable work will be done along all lines of agriculture of interest and value to the farmer generally.

BETTER FACILITIES.

At some of the Experimental Farms it was found that important branches of agricultural work have not been taken up owing to lack of facilities. For instance, in Alberta, and yet it was found at the Lacombe Farm there were no facilities for carrying on any work in this connection. An additional tract of land has been secured, and from now on the necessary aid will be given to live stock.

AT KENTVILLE, N. S.

New buildings are being erected at the Experimental Farm at Kentville, Nova Scotia, and splendid work has been done under the new superintendent, W. S. Blair, formerly professor of agriculture at MacDonald College. It is expected that the work done at this farm in fruit growing and other branches of agriculture will be of the greatest benefit to the people not only of Annapolis and Cornwallis valleys, but in the other districts where fruit-growing is not a specialty.

IN ST. JOHN VALLEY.

The land for a new Experimental Farm has been acquired at Fredericton, N. B., and the preliminary work has been outlined. This farm will particularly serve the St. John valley, and will, no doubt, do much to promote the welfare of all branches of agriculture.

Do You

Do you wear Union made boots and clothing?

If not, why not?

Is it because you are afraid of the boss?

And why, working-men and women, should you be afraid of the bosses?

They could not get along without you.

TRURO, OCT. 12, 1912

THE GIRL OF HIS HEART.

The story of Enoch Arden, the hero of love-stories for many years, is down and out; and it is a Truro man who did him up.

The story of the Truro romance, so far as Lunn's can learn it, is just this way:

A popular young Truro man fell in love with a handsome young lady whose home is in the suburbs or, rather, the environments.

The wedding day was set, but when it arrived the young lady was ill with diphtheria and quarantined at her home.

But, nothing daunted, the young man went to the quarantined home, was married to the girl of his heart and remained in quarantine with her.

That young man is what we term one of God's noblemen.

May many years of health, peace and prosperity come to him and his young wife.

\$1,000 Altar

Lunn's is informed on what it considers the best of authority that Mrs. O'Day, of New York, formerly Miss Lyda Page of this town, who was recently called here by the death of her aunt, widow of the late Dr. A. C. Page has decided to present the Roman Catholic church of Truro with a \$1000. Marble Altar, made in New York.

OYSTERS

Oysters at the People's Restaurant tonight.

Are You?

Say!

Are you afraid of the boss?

If so, Why?

Are you afraid to buy and read Lunn's Weekly, to attend a Labor meeting, or join a Labor Union because you are afraid of the boss?

If so, quit it; quit crawling, stand erect like men and women, as God intended that you should.

UP-TO-DATE

The Truro Restaurant is the latest. Bang up to date. Here is the list:

John's Birthday

Truro's well known colored citizen, John Gero, quietly, at his home on Foundry Hill, celebrated a birthday on Tuesday last.

Friend John was born at Black Bridge, Antigonish Co. on the 8th of October, 1834.

Mr. Gero came of real old African stock, his grandfather having been born in Bourgo, Africa.

Forty-seven years ago he married Mary Jane Ashe, at Black Bridge. He, with his wife and two children, Ben and Ruth, the latter now

Mrs. John Green, of Foundry Hill, came to Truro in 1867.

The many friends of John and his good wife sincerely hope they may long be spared to enjoy each other's company and the esteem of all who know them.

Phonograph Records.

"The family in the flat next to ours have a phonograph."

"Have they any good records?"

"Yes; they have one record for six hours continuously playing, and another of six hours and twenty minutes almost continuous."—Kansas City Journal.
