Generosity of World towwards
Belgium Recorded by Royal
Decree

By royal decree there is compiled in Belgium a "Golden Book" in which will be inscribed the names of individuals and organizations who have given assistance to the destitute of Belgium during the great world struggle in Europe. The unique book will be divided into three parts. The first will contain a complex list of the monetary gifts to Belgian people by the peoples of the world, through whose generosity alone have these stricken heroes been permitted to live. The second part will be devoted to the organizations which have carried on the work of dispensing aid in Belgium and the third part will contain the history of the numerous organizations outside of Belgium, which have exerted their efforts towards succoring this nation.

In two parts of the book, at

elgium and ontain the historic arous organizations belgium, which have exceptions of the book, at least, Canada will figure. In the first part will be inscribed the names of many who have already contributed to this worthy cause. With a view to giving Canada a place in the world and to show that, this part of the Empire has not been delinquent in its duty the Beigian Relief Committee of Montreal is renewing its efforts to obtain more donations—more gifts of money or in kind—to continue the good work in Belgium—the good work in Belgium—algica.
