BERLIN FEARS POTATO FAMINE. London Cable.—The correspondent of the Daily News telegraphed from Copenhagen: "Berlin grows more and more alarmed at the coming potato famine. The newspapers print special potato editions, with pictorial advice on how to economize, and how to grow the exotic potatoes. I am informed that a week passes in Berlin without a disturbance due to the new food conditions. In nearly all cases the disturbances are caused by dissatisfied women. These demonstrations are becoming more frequent and more violent. There already has been one case of riot."

LITTLE HOPE FOR MINERS. Hinton, W. Va., Despatch.—Trained miners working under the direction of engineers of the Federal Bureau of Mines, to-day penetrated the entire length of the main entry in the Layland mine where an explosion occurred yesterday. Three bodies were recovered, bringing the number dead to 13. Leaders of the rescue expressed the opinion that when the rooms were reached many more bodies would be found. Earl Henry, chief of the West Virginia Mining Department, said the workings were filled with after-damp, and he believed many lives had been lost.
