An operation which will be of great interest to the medical fraternity, was recently performed at the General Hospital. Richard Hurst was recently removed to the hospital with a kidney disease in which it was found necessary to perform an operation for the removal of one of these delicate organs. The kidney was safely removed and Mr. Hurst is now on his way to speedy recovery. His physician says that he has every hope that the patient will be around again shortly and be none the worse for the critical operation.

Citizens living along Park street and Wellington street complain of the disturbance created by automobiles which are driven along the thoroughfares at furious rates during late hours of the night. The autoists persist in footling the horns, and make so much noise that it is almost impossible for the good people to sleep while the din is in progress. Some city autoists drive their machines at rates that are highly dangerous to life and property. It is thought that the motorists might at least show a little more regard for other people's comfort and safety.

NO. 8. MASTER MINDS ON MUSIC

Being the 8th of a series of ten talks introducing sayings of great men, applicable to the Nordheimer Piano, the symbol to perfect music.

Of all the arts beneath the Heaven that man has found, Or God has given, none draws The soul so sweet away as Music's melting, mystic lay —HOGG

This poet very aptly expresses the influence of music—drawing the soul sweetly away. Have you ever noticed the extent to which you have been drawn away, as it were? Whatever difference there has been has been due to the refinement of the music. Music such as is produced from

is the "melting, mystic lay" that Hogg would have delighted in. It is the music that you would delight in; it is the music that is delighted in by thousands of Canadians, for the Nordheimer Piano embodies the most perfect of tones.
