Will true Reformers stand idly by and see Drs. Clarke, Herod, McEernan & Co. running a man against the regular Reform candidate? No, they will not; but every man of them will go and vote for Guthrie.

**Guelph Evening Mercury**  
TUESDAY EVENING, JULY 4, 1876

**Mr. Goldie's Protection Promises and Tory Inconsistency**  
The Globe hits the nail on the head when it says:—

There is not much here (in Mr. Goldie's address) to satisfy the protectionists, but it was probably all that Mr. Goldie could say on the matter, although it is very small ground to break with his old friends and divide his party upon. Still less, one would think, would it justify Mr. Goldie's Conservative backers in taking part in the election of a gentleman who in every other particular but one would give a steady support to a Government on which they are daily heaping every conceivable contumacious designation. Their consistency or otherwise is, perhaps, their own business; but the fact of itself should show Mr. Goldie how little honesty there is in the support they are according him. That any Reformer, sincerely desirous of acting with his friends and party, should be led away by a difference so trivial as that which Mr. Goldie's address presents, when compared with Mr. Guthrie's, seems almost incredible. That any practical result in the interest of protection would accrue from Mr. Goldie's return it is impossible to conceive. Meantime we are glad to see that Mr. Guthrie and his friends are working with a will, and squarely facing the issues presented to them. We trust that their efforts will everywhere be reciprocated, and that the Reform party of South Wellington, true to its past record, will by a large majority elect the candidate of its choice.

**Vote for Mr. Guthrie the Legitimate Candidate of the Reform Convention, and the unanimous choice of the Delegates.**

**A Mean Trick.**  
We have just heard that Mr. Wm. Hart, one of Mr. Guthrie's warmest friends, has been appointed by Mr. W. J. Patterson, as his Poll Clerk, at Ballinac. This is of a piece with some of the other tricks practised by the Tories. Well, it won't help them much.

**Protection in the States, and its Consequences.**

As an evidence of the fatal fruits of over protection, we may mention that the current report is that Messrs. Randall, Farr & Co., who left Hespeler some two years ago for the New England States, on the ground that they would go to protection there, are in difficulties, and have stopped altogether. So much for the protection asked by Messrs. Goldie, Wilkie, Bell & Co. If our readers want still more proof, here it is:—

A Philadelphia correspondent writing to an English paper says:—The papers allude with much complacency to the brave show of American manufacturers that are already on exhibition at Philadelphia, and I suppose that in many branches of manufacture the United States stand second to no nation. Certainly it might be so, for to secure such production the people of the country have paid during the last fifteen years an aggregate amount more than equal to the English and American national debts put together—that is, the people have taxed themselves at the rate of \$500,000,000 annually at the lowest calculation, or, in the aggregate, some \$7,500,000,000 to foster home industry. For such a sum of money they have a right to expect a splendid show of manufactures. It is true the workmen are starving, trade and industry are at their lowest ebb; the iron, wooden, and other industries are in the hands of the sheriff, and the most hopeful are beginning to despair of an early revival of activity; but there will be a magnificent show. But it is not curious that, notwithstanding the excellence of American wares, a very trifling proportion of them is called for by foreign countries. In 1875 the total value of exports from the United States was \$658,691,291. Of this all but \$78,000,000 was represented by raw cotton, grain, provisions, tobacco, and kerosene oil, and of the \$78,000,000 nearly \$30,000,000 are represented by timber, and manufacturers of food, leather, and coal. So that it appears

that less than nine per cent. of the year's exports was of manufactured articles. But what is more surprising is the fact that according to the census of 1870 the actual value of manufactures in this country is, or then was, \$4,200,000,000 annually, so that less than two per cent. of the articles manufactured are sent to foreign countries. On the other hand, the agricultural products were, in 1870, valued at \$2,447,000,000, and the exports of their produce in 1875 were over \$590,000,000, or more than 25 per cent. of all they raise, after supplying the home demand. To explain such a strange phenomenon is baffles the ingenuity even of the protectionists.

**Revenue Tariffs and Protective Duties.**

Mr. Mackenzie in his speech at Whitby very happily pointed out that the agricultural state of Ontario is far better off than those of the Western States. The following extract from a speech delivered at Washington some time since by Mr. Marshall, one of the representatives for Illinois, will perhaps throw some light on the difficulties the Western States farmer has to contend against under a system of protective duties. Mr. Marshall said:—"The farmer starting to his work has a shoe put on his horse with nails taxed at sixty-seven per cent.; driven by a hammer taxed at 54 per cent.; cuts a stick with a knife taxed 50 per cent.; hitches his horse to a plough taxed 50 per cent.; with chains taxed 67 per cent. He returns to his home at night, and lays his weary limbs on a sheet taxed fifty-eight per cent., and covers himself with a blanket that has paid 250 per cent. He rises in the morning, puts on his humble flannel shirt, taxed 80 per cent.; his coat taxed 50 per cent.; shoes, taxed 35 per cent.; and hat, taxed 70 per cent.; opens faith with a Bible taxed 25 per cent.; and kneels to his God on a humble carpet, taxed 150 per cent. He sits down to his humble meal from a plate taxed 40 per cent.; with knife and fork 35 per cent.; drinks his cup of coffee taxed 47 per cent.; or tea 78 per cent.; seasons his food with salt taxed 100 per cent.; pepper, 297 per cent.; or spice, 379 per cent. He looks around upon his wife and children, afflicted in the same way, takes a chew of tobacco tax d 100 per cent., or lights a cigar taxed 120 per cent., and then thanks his stars that he lives under the freest and best Government under Heaven."

**GOLDIE AND VICTORY.**

Mr. Goldie's Ward Committees are requested to meet to-night (Tuesday), at the undermentioned places at 7:30 sharp:—  
West Ward at Nag's Union Hotel.  
North " " Goldie's Mill Office.  
South " " Merlihan's Hotel.  
East " " Bell's Factory.  
God save the Queen and long live Goldie!

**South Wellington Election.**

To the Free and Independent Electors of the South Riding of the County of Wellington.  
Fellow Electors.—At the urgent solicitation of a great number of the Electors of this Riding have consented to become a Candidate for the representation of the South Riding of Wellington, and solicit your votes, influence and support in the coming contest.

I am now, as I always have been, a Reformer in politics. I took no part in the Convention lately held, am therefore not in any way committed to its action, although I would have been happy had the nominee been one that I could have supported. Under existing circumstances I deeply regret that I cannot support one who, though a fellow townsman and political friend, does not see the necessity of pledging his independent efforts for the readjustment of the tariff for the encouragement of our own industries and the development of our own resources.

I was early asked to become a Candidate, but trusting that another would have been so that would have proved acceptable to my fellow citizens, I declined, but having now consented I trust to have your energetic support.

The readjustment of our present customs tariff has for a considerable time past occupied public attention. On that I would say, that to promote our agricultural interests, reciprocity with the United States, or the free exchange of our natural productions, would be most advantageous to us, and my effort will be to obtain such a treaty, but as that apparently is not likely soon to be obtained, I will advocate the readjustment of the tariff on the natural products of the United States coming into Canada on such principles as the requirements of revenue and the protection of our agricultural interests may warrant.

As to our manufacturing industries, I am satisfied that a very great deal of our present depression has been caused by the over-importation of foreign manufactures against our own producers, who have not such incidental protection as should be afforded by our tariff, the adjustment of which to foster our own industries will have my best attention.

Prohibition or restriction of the liquor traffic I have always been in favor of, and will support any motion or bill that will promote the prohibition of that traffic.

I will, if elected as your representative, maintain an independent position in the House, but will cordially support the present Government in all legislation that I may consider advantageous to the country.

Committing myself into your hands, I am,  
Yours respectfully,  
JAMES GOLDIE.  
Guelph, 29th June, 1876.

**South Wellington Election.**

To the Electors of the South Riding of the County of Wellington:

Gentlemen.—Having been unanimously chosen by the large and influential Convention of Reformers lately assembled here, to be the nominee of the Reform Party at the approaching election for the House of Commons, and having accepted that nomination, I beg to offer myself a candidate for your suffrages.

Should you do me the honor to elect me as your representative, I will in Parliament give the administration of the Hon. Alexander Mackenzie—composed as it is of many gentlemen of tried integrity and ability—a general but independent support. I believe the members of the Government are animated by a patriotic and progressive spirit, and are sincerely desirous as far as lies in their power to forward the prosperity and well being of all interests and classes in our young Dominion. But while entertaining a high respect for them and their position as members of a Reform Government, I shall exercise my judgment on all measures which may be proposed, and I will not for mere party purposes support the Government in any matter of which I do not approve, nor shall I vote against any measure simply because it emanates from the Opposition.

The subject of the tariff on importations shall receive my best attention, with the view of promoting and procuring such changes as may appear to be necessary to make the tariff equal and fair to the mercantile, manufacturing and agricultural interests. I am in favor of a Treaty for reciprocal trade between Canada and the United States, terms which shall be just to both countries, and I will support any measure calculated to bring about the negotiation of such a Treaty.

I will favor and support a Bill to prohibit the trade in intoxicating liquors. Should you honor me with your confidence by returning me as Member for this Riding, I shall endeavor to justify that confidence by striving to the best of my ability in securing for you and the country wise and progressive legislation and pure and honest Government.

Trusting to have an early opportunity in public meetings of laying before you at more length my views on important public questions of the day, I remain your obedient servant,  
DONALD GUTHRIE.  
Guelph, June 20, 1876.

**South Wellington ELECTION.**
