PROSPECTUS

Family Journal of Agriculture-Internal Ing-provement-Literature-Science-General Intelligence-published every Saturday, at R. Brewer & Co.'s Establishment, Toronto, and is now offered at the exceeding low price of ONE DOLLAR per year.

THE FARMER was cetablished to sup-I ply a want that has long been felt in the periodical Literature of Canada. On the one hand, a majority of the weekly the one hand, a majority of the weekly publications devoted their exclusive attention to the politics of "party," a few to Religion and kindred topics, and on the other, one "magazine" poured out its mouthly stores on the grand, inexhaustable, and vitally important subject of Canadian Agriculture.

Agriculture.
Although it is impossible to treat of pubattnoon it is impossible to treat or plan-fic question without, in some sense, writing politics, yet the FARMER has not included died with 'parties' nor will it hereafter less errupulously avoid them. Its objects are the interesting, the useful, the necessary. As agriculture is the interest of first unportance to the people of Canada, so is it awarded the first place and the chief atten-tion in the columns of the Farmer. Emigration, Commercial regulations, Education, Legislative enactment, and all questions bearing on the industrial pursuits of the country come under impertial reviews.—
Short notices of useful books &c.; literary selections, entertaining, instructive and moral; the improvements and discoveries in moral; the improvements and discoveries in Science and the useful arts; a dish for the ladies and the Scraps for the boys; the mar-kets at home and abroad, with the general news of the day, complete the bill of fare to which we invite the attention of every family, in every town and township of

Canada. The first volume has met with unexspected favour from the public and the press. The enconiums of the latter, so liberally bestowed, would have consoled the Editors with the helief that their labours merited, had they not received encourage-ment. But the substantial support of the public has been such as to warrant us, we

think in continuing the publication.

The second volume will be superior to the first in several points. More time will given to it by the Editors, and a number of persons of the highest qualifications have promised their assistance as correspondents. A number will be sent as a specimin to any one requiring it by letter (or otherwise)
Postage paid. All orders should be sent
in by 1st, or least 5th January, so that we may know how large an edition to print.— The unexspected demand for the back Nos. exhausted our edition of the lat volumn some time since, and to prevent such an oc currance again, we hope our Agents and all others will send forward their orders with-out delay.
