Remains of Paleolithic Man in America

SANTA BARBARA, Calif.—Proof that paleolithic man lived on the Southern California coast at least 25,000 years ago, is afforded by recent excavations of human remains near Santa Barbara, Calif., in the belief of Dr. J. P. Harrington, head of a party of Smithsonian Institution investigators which made the finds.

Dr. Harrington said the discoveries proved theories "formerly held by scientists to be incorrect by at least 15,000 years, and possibly more."

That the Santa Barbara man was an inhabitant of the Pacific Coast at the same time as, if not earlier than, the Neanderthal man, roamed Paleolithic Europe is established, according to Dr. Harrington by a number of features of the skulls found here.

Chief of these is the thickness of the skull, the almost complete absence of forehead, the bovine characteristics of the teeth, and the construction of upper and lower jaws, which resembles that evident in the lower orders.

The skull of the Santa Barbara man possesses a pronounced supra-orbital ridge without depression between the eyes, as does the Neanderthal man. The thickness of the skull, more than one-half inch, is almost the same. Even more striking proof of the Santa Barbara man's era, according to the Smithsonian archaeologist, is found in comparison of the teeth and jawbone structures with those of the Heidelberg man.

Big Attraction

Opening To-Night

FAMOUS SINGER AND POPULAR DANCERS AT THE NICKEL.

The greatest theatrical treat for some years opens to-night at the Nickel Theatre, it being the initial appearance in our city of Grace Bradley, the celebrated star of American and Italian Opera and Dolly Moore and Jimmie Clayton, the finest dancing act of its kind.

Miss Bradley is classed among the most famous operatic singers of the day, and her success is widely known from coast to coast. She has had a phenomenal career with the Italian Opera Company of Milan, Italy, and more recently with The Metropolitan Opera of New York. Her voice covers the marvelous range of four C's, a most unusual compass for a contralto.

Dolly Moore and Jimmie Clayton, in class vaudeville dancing act, are in their line of work, a superlative attraction. Their act consists of dances not hitherto seen in St. John's. The Double Russian Adagio is a special feature which they perform skillfully. Dolly Moore also appears in a unique Toe Dance and in an acrobatic number with her partner, Jimmie Clayton.

Patrons are advised to attend as early as possible to-night, so as not to miss a single portion of the program. The biggest music show in the city.

Dispensing With Suits

SANTA BARBARA, Calif.—Bathing in a nature on the ocean beach in the evenings and early morning may become the custom in this city, as it has been discovered that the old ordinance in force in Santa Barbara does not require that bathing suits be worn at night. The law provides that suits must be worn between the hours of 6 o'clock in the morning and 8 in the evening. It makes no provision for suits for the rest of the 24 hours. It has been known for some time that bathing parties have been held sans suits, but it was not known that the return to ancient customs had legal backing.

Law and Education

London Times: The English common law is a great intellectual growth, which has adapted itself through centuries to the need of a vast community, and, in the opinion of Lord Justice Atkin, it is as good and efficient a code of law as it is possible for the human mind to devise. To understand something of the principles of English law is, therefore, to take up into the per-

sonality some of the deepest and clearest thinking that this country has produced. It is an object of intellectual study, apart altogether from its vocational value.
