speed of eighty-five miles an hour, and

Buffalo, N. Y.

A. Stuart MacLaren, the leader of the expedition, who is acting as navigator and organizer, his pilot, Flying Officer W. N. Plenderleith, and the machanic, Flight Sergeant R. Andrews. England and Scotland are both reprresented in this bold adventure. If the challenge which is being offered to the untamed forces of Nature in both there is no reason to anticipate failure-it will not be for lack of foresight, for stocks of petrol, provided by the Asiatic Petroleum Company, e rise to a certain feeling of have been distributed at every place have been distributed at every place Whichever way you figure: of call and all other arrangements Little men have little ways, e airmen concerned and of have been made which human ingen-

says the Times, "will necessarily be of the British Expedition, Squadron their engineer and mechanic, Sergt. R. Andrews. The idea of their flight round the world is not, as might be to the news of the start of the American venture. It has been long and two years Squadron Leader MacLarhey are to win through, will en has been turning it over in his ing out to do something as last spring. Since then numerou done before. If supply bases have been established sh the feat, the in different parts of the world, and which but a few with the co-operation of three great British Companies all necessary prea's wildest dreams, it can parations, including the building of keeping the practical end three special engines for the aeroiew, without any heed to plane, have been completed. The ons, that they can aircraft itself is amphibian—a flyinghoat with a removable land und preserved carriage. In using a machine of this physical exhaustion pe, so as to be able to rely largely akdown, of storm, on water landings, Squadron Leader MacLaren is striking out a new line

Five Flight Sections

"The first of the five sections of the light, by Rome, Cairo, and Bagdad to Karachi, he was himself the first to fly six years ago; the remaining four end respectively at Tokyo (the most probable meeting-place of the British and American expeditions), Vancouver, Ottawa, and England, the most difficult being the stretch of 5,600 miles from Tokyo, by the Kurile and the Aleutian Islands to Alaska (during which Lieutenant-Colonel L. E. Broome will be carried as a passenger and guide), and the mot dansgerous magination, and, though perhaps, the final jump across the Atlantic. The most southerly and northerly pionts touched at will be ryone connected with the Bangkok, fifteen degrees north of the Force will follow with un- Equator, and Cordova, in Alaska; the trans-Atlantic and concluding section gators of the world of the of the flight from St. John's, Nfid., is era until, towards the end expected to be by way of the Azores,

Thre Wonderful Months "If everything goes according to an type, capable of com- plan, it is believed that the whole on sea or land. It is of distance of between 23,000 and 24,000 acture, is equipped with miles, very largely over British ter-

ritory, will be covered in less than 300 flying hours, the flight starting today and ending in England on June For the next three months, as each landing stage is reached, Flight-

cal requirements of the expedition by petrol have already been dumped at each port of call .- Public Opinion.

25 Years in Pen and 20 Lashes is Judge's Sentence

PENALTY FOR HOLD-UP OF MOL-SONS BANK BRANCH.

Twenty-five years in the penitenlary and twenty lashes with the cato' nine tails was the sentence imposed by Judge Monet in the Court of Sessions to-day when Raoul Beauchamp, found guilty of holding-up up with arms and with two other men, the staff of the Molsons Bank branch at Cote des Neiges on February 14 last, and stealing from them the sum of \$1,740.

Domenico Policeno, who was also charged with the same crime, was given the benefit of the doubt and ac-

Beauchamp, Judge Monet said: "It is my duty, Beauchamp, to inflict on you this city for months has to be check- though he saw them twice; when one tempted to steal when it is found that opinion that you would be here again, this time for murder. My duty comple, I also inflict on you the lash. It again, by your dastardly deed, you compel me to act against my natural
