Red raw raspy throats

SORE throats are dangerous—as you well know. The danger increases if you delay treatment until you can get home to use a gargle or spray.

Give your throat continuous treatment. Every half-hour or hour wherever you may be, dissolve one of the pleasant-tasting tablets in the mouth.

Formamint releases in the throat a powerful yet safe antiseptic that destroys germs as no spray or gargle can do because:

It keeps up its action long enough to kill germs. It can be taken at frequent enough intervals to make the treatment continuous.

To prevent sore throat, and infection from influenza, grippe, tonsillitis—many dangerous diseases—take a Formamint tablet about every two hours. Ask your druggist.

Send four cents in postage for metal pocket case filled with Formamint. Address: Gerald S. Doyle, St. John's, Newfoundland.

TO YOUNG MEN!

This is specially addressed to the young men who are following the trend of style especially as regards trousers. If you want the bell bottom trousers, with or without cuff, here is the place to get them; we are making and have made recently some splendid examples of this style. This also applies to the straight hanging English trousers hanging free from the hips to the cuff; with plenty of room at knees and bottom.
