

Daily Witness Evangelical Alliance Extra.

During the recent Conference of the Evangelical Alliance in Montreal, the Montreal Witness, in addition to the running summary of the proceedings, which appeared as usual in the daily edition of the paper, issued a daily Extra of sixteen pages, containing a verbatim report. The later numbers of this Extra, concluding with one in French (being a report of the French section of the Alliance), have come to us somewhat more sluggishly than the first. These reports contain the works of some of the master minds of the day, such as Dr. McCosh and Hall of Princeton and New York; President Porter, of Yale; Dr. Donald Fraser, of London; and Dr. Schaff, of Constantinople; besides addresses by such men as Lord Cavan, Henry Varley, the butcher evangelist; and Mr. Thane Miller, of Cincinnati; as well as the contributions of Canadians, such as Dr. Dawson, of Montreal; Dr. Wilson, of Toronto; Mr. Grant, of Halifax; Mr. Gibson, of Chicago; and others, who rank well beside those who came from abroad. These papers have been illustrated by likenesses of most of the leading men in the Conference.

We now learn that a complete edition, containing 100 pages, is being published on tinted paper, which will be posted to any address for 25 cents, giving, we are convinced, as much solid and valuable reading on the matters which are at present most exciting the thoughts of Christendom, as could be got anywhere for the money. The subjects which attract special attention were the replies by various philologists and scientific men to Mr. Tyndall's late speech, and the speculations of Mr. Grant and others with regard to the Church of the future, with special reference to Canada.

THE SYMPTOMS OF MENTAL decay resemble the gradual changes that come over old people, and are similar to those induced by excess and bad habits, and the tendency is to the production of softening of the brain and insanity. The cause is deficiency of phosphates, as it is well known that men grow older and mentally weaker when the nervous system is insufficiently supplied with these elements—the solidity of the brain depending upon phospho sized compounds—and that those foods which are richest in phosphates renovate most speedily weakened brain power and loss of constitutional vigor. Dr. Wheeler's Compound Bix of Phosphates and Gallia contains these agents in an easily assimilable form, constituting a brain and nerve food. O23-daw2w

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Pencils it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. **No Tar is Used in this Composition,** therefore, it does not effect the water from the roof, if turned off from the eistern before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and **STOPS THE LEAKS.** The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
