NO BOATING TILL END OF SUMMER

When the Waterworks Dam Will Be Completed—The Present Stage of the Work.

It will be a source of regret to the lovers of aquatic sports in London to learn that the outlook for the coming season is not more promising than it was last year.

The dam at Springbank will not be completed until some time in September, and until then there will not be a sufficient depth of water in the river to permit of boating to any extent.

Engineer Moore, when seen by an Advertiser representative, said that only about one-third of the dam has been done so far, but that portion done is the most difficult part of the work. The contractor is now in a position to go forward with the work, and will be able to continue work unhindered by moderate rises in the river due to rains. When the dam is completed the river will be the same height it was prior to the carrying away of the former dam. The sluicegates in the new dam will permit of the backwater being released at any time, and by their use the river can be kept clean. The frequency of this cleaning will depend largely on circumstances. The sun and the wind tend to bring the fungoid growths to the surface of the water. The presence of boats on the river also tends to keep the river clean, as the action of the oars agitates and aerates the water, and the more boats there are on the river the cleaner it will be.

All danger of a flood from the spring freshets is now past, and the river is falling rapidly. There was very little ice in the branches this year. Hunt Bros. ran their mill all through the flood this year, something they never did before. The largest floods known on the river have, however, occurred at a season of the year when there was no ice, they being the great July flood and the May flood three years ago.

But Ald. Douglass Thinks $17,925 Will Do.

And Will Move to That Effect in Council—One Hundred "Don't Spit" Signs To Be Purchased—Oddfellows Will Not Pay Rent Till Roof Is Repaired.

The board of works met last night, all the members being present. The most important business of the evening was the adoption of the estimates for the year. The estimates were as follows:

	Estimates, 1900.	Douglass, 1900.
Street cleaning	$ 6,000	$ 6,000
Streets and general improvements	25,000	5,000
Bridge expenses	1,400	200

Storage building	50	....
Total	$42,850	$17,925

The second column of figures is Ald. Douglass' idea of what the estimates should be, and when the matter comes before the council he will move for their substitution in place of those of the committee. For purposes of comparison the estimates and expenditures for 1899 are given below:

	Estimates, 1899.	Expenditure, 1899.

W. E. Saunders having presented a claim for payment of a bill of $7 40, occasioned by the plugging of a city sewer on Clarence street, the engineer recommended that the bill be not paid, as the cause of the obstruction in the drain was the ashes and other refuse which came from the Saunders drain after the fire which destroyed the warehouse last year. The bill was accordingly filed.

McEvoy, Pope & Perrin wrote on behalf of John McArthur, claiming damages for injuries to a horse and damage to a cutter, caused by the unsafe condition of King street, in front of the Masonic Temple ruins. Mr. McArthur was also present and addressed the committee. The engineer reported that he considered that Mr. McArthur did not exercise proper care. The letter was filed.

Engineer Graydon having asked for hose for street flushing purposes. Chief Roe wrote saying that between 600 and 700 feet of old hose could be furnished by the fire department for this purpose.

Chorazin Lodge, I. O. O. F. wrote protesting against paying rent for their lodge rooms in ward 5 town hall until the roof is repaired, water connections and sanitary conveniences put in, and a fire escape erected. On motion the engineer was ordered to have the roof put in proper state of repair as soon as the weather permits.

Messrs. Cotton & Moir having requested the committee to sell them 20 yards of broken stone, it was recommended that they be supplied with 4½ cords at $6 50 per cord.

The purchase of 100 enameled "Do not spit on sidewalk" signs at 26 cents each was recommended.

Ald. Bartlett moved that inspectors on the sub-grade of cement walks receive $1 50 per day for a day of nine hours, and 20 cents per hour for all overtime. The motion carried.

Ald. Brener moved that all proposed contracts and agreements be submitted to committee before being executed, and that contracts for laying cement walks this year be laid on the table at next meeting. Carried.

CLAMORING FOR POLICE

The People of Glencoe Want Guardians of the Peace—Last Week's Outrage.

Residents of Glencoe are still considerably excited over the outrage which was committed there last week on a colored woman, Sarah Dorsey. In conversation with a resident of that place yesterday, an Advertiser representative was informed that the people of the village are clamoring for police protection. So anxious are they to have an efficient police service that a number of townspeople are willing to raise, by private subscription, a sum sufficient to pay the salary of an officer.

The Glencoe people also wish it distinctly understood that the men charged with having committed the crime are not properly residents of Glencoe, but belong to a rough class of outsiders.

One of the suspects who is wanted is the young man who, it is alleged, induced Mrs. Dorsey to leave the station, and who gave her a drink which deprived her of consciousness. He is a junk dealer, who travels through Western Ontario, and he was seen in London on Saturday, but has since disappeared.

ESTIMATE CHOPPERS

Finance Committee Would Curtail Proposed Expenditure.

Cold Shoulder for the Board of Education—The Aldermen Decide That New Schools Are Not Needed at Present.

That body of municipal estimate choppers, more respectfully known as Ald. Jolly's financiers—No. 1 committee—met last night, in order to curtail, if possible, the estimated expenditure of all the municipal departments, and incidentally to throw defiance in the teeth of their fellow-public servants, the board of school trustees. Ald. Winder and those of his ilk were anxious also to tussle with the figures supplied by other committees, but on account of their tardiness in submitting them, this worthy desire could not be gratified. Consequently, another meeting of No. 1 committee will be necessary for the consideration of further estimates, and the rate is still a matter of conjecture.

The request of the board of education for $121,100 65 was received with set lips, and an evident determination to cut this sum down. It was considered in detail. Ald. Jolly was of the opinion that the only way in which this could be done would be by throwing out the sum of $17,400 for repairs to buildings; $500 for domestic science and the amount necessary for the maintenance of kindergartens. Ald Cooper wished that the sum of $100,000 be allowed, and then, if the board were not satisfied, they could go to the people. After the expression of various opinions on the matter, it was moved that the council be recommended to grant $95,000 to the board of education for its work this year, this to include public school and Collegiate Institute estimates. The requisition for the issue of debentures amounting to about $20,000 was not granted, the committee being of the opinion that no new schools are necessary. Ald. Dreaney was the only member who did not favor the course.

On the suggestion of Ald. Cooper a motion carried to the effect that all local improvement bylaws be made out by the assessment commissioner, thus saving the $2 50 each at present paid to the city solicitor.

A grant of $12 was made to the Seventh Battalion Bugle Band for services rendered on Ladysmith Day.

Costs on the street railway appeal, amounting to $150, were ordered to be paid.

Police Court Clerk Moule's report was received and filed.

A bylaw will be prepared to prevent fistic exhibitions.

There were present Ald. Jolly (chairman), Cooper, Dreaney, Stevenson, Winder and Secretary Pope.

Martin--Owrey.

At the family residence, 505 Talbot street, yesterday afternoon, the marriage of Miss Lulah Ryerson Owrey and Mr. Wm. Morris Martin, was solemnized in the presence of a large number of guests from the city and outside places. The bride is a society belle, the daughter of the late Squire Owrey, and the groom, whose home is in South London, is a popular traveler for John Marshall & Co. It was a violet wedding, and the house decorations of this sweet little flower were lavish and exceedingly beautiful. The ceremony was performed at 1:30 o'clock by Rev. Dr. J. V. Smith, pastor of the First Methodist Church. The bride was charming, in a costume of white taffeta silk, having pure white velvet and sequine trimmings. She wore the customary veil, which was made of lace that her mother wore on her wedding day. The bridal bouquet was of roses. Miss Helen Hamilton, of Toronto, who acted as bridesmaid, was attired in embroidered Swiss muslin. An all-over silk lace yoke of pure white, a pearl corsage and sash of hemstitched taffeta made her dress an extremely beautiful one. Mr. Fred Kerringer was the groomsman.

After a wedding breakfast had been served Mr. and Mrs. Martin left on a two weeks' bridal tour to New York and eastern points.

The popularity of the contracting parties was evidenced by the large array of magnificent presents, among which were a bronze image and onyx table from the warehouse associates of the groom; a handsome set of dining-room chairs from Mr. R. V. Weldon, brother-in-law of the bride, and a silver tea service of five pieces, the present of John Marshall & Co.

Among the guests were: Mr. and Mrs. Hamilton, Mr. and Mrs. T. A. Weldon, Mr. I. H. Weldon, Mrs. Freer and Mr. Owrey Freer, of Toronto, Mr. and Mrs. Wm. Meek, Mr. and Mrs. James Weldon, Miss Weldon, Miss Clara Chapleau, Miss Ethel Futcher and Miss Maud Bennett, of St. Thomas; Dr. and Mrs. Bartlett, of Woodstock; Miss Lily Weldon, of New York; Mrs. McLellan, of Mount Brydges; Mr. Stuart Martin, of Rossland, B. C.; Mr. and Mrs. Samuel Munro; Mr. and Mrs. Walter Simson, Mr. and Mrs. Bert Lind, Mr. and Mrs. Jackson, Mr. Buttrey, Mr. Roland Munro, Miss Mary Lees, Mr. and Mrs. R. G. For Hair and Scalp

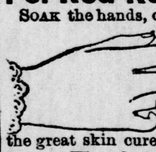
SHAMPOO with CUTICURA SOAP, rinse with warm water, dry and apply a light dressing of CUTICURA, purest of emollients, gently rubbed into the scalp. This simple, refreshing, and inexpensive treatment will soothe irritated and itching surfaces, stimulate the hair follicles, clear the scalp and hair of crusts, scales, and dandruff, supply the roots with energy and nourishment, and make the hair grow, when all else fails.

For Red Rough Hands

SOAK the hands, on retiring, in strong, hot lather of CUTICURA SOAP. Thoroughly dry, and anoint freely with CUTICURA Ointment, the great skin cure and purest of emollients. Wear during the night old, loose kid gloves. For red, rough, chapped hands, dry, fissured, itching, and feverish palms, shapeless nails with painful finger ends, this one night treatment is simply wonderful.



For Sanative Uses

ITS remarkable emollient, cleansing, purifying properties, derived from CUTICURA, the great skin cure, warrant the use of CUTICURA SOAP, in the form of baths for annoying irritations, inflammations, and chafings, for too free or offensive perspiration, and also in the form of internal washes and solutions for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially to mothers.
