KNOX AT WOODSTOCK.

The Knox Baseball Club took their sticks with them to Woodstock on Saturday afternoon and used them to good effect in their third game this season with the crack team of that They started to manufacture singles and doubles in the very first inning, and made so many off Wolf's curves before three men were out that that gentleman was replaced by Brooks. In the fourth Mr. Brooks was touched up for three singles and a double, but with the exception of that inning hits off his delivery were scat-Robert Gibson's pitching for the Knox was a feature. For the first four innings the home team went out in one, two, three order, and although in the fifth, with only one out, and again in the seventh, with no one out, the bases were filled, Woodstock failed to score.

The fielding of both teams was full of snap and ginger, and the errors made had little or no effect on the

It is said that this is the first time in two years that the Woodstock Baseball Club has been defeated in their own grounds by an amateur team. The score is as follows: KNOX.

THE HORTON LAW. New York, Sept. 1.-The Horton law is dead. At the Broadway Athletic Club last night, after the Gans-Hawkins fight, this passing of pugilism was signalized by the singing of "Auld Lang Syne" by the crowd. It is esti-mated that since the passage of the law in 1896, 3,350 fights have taken place in this state, the majority in Greater New York. The total receipts are placed at about \$2,805,000. The Erne-McGovern fight drew the biggest crowd and the Corbett-McCoy fight had the largest receipts, about \$60,000.

PHILLIES' CLEAN RECORD. Toronto, Sept. 2.-The Philadelphia cricketers leave town today with a clean slate, as they won every match they have played in Toronto. They defeated Parkdale, St. Albans, Upper Canada College and Toronto-Rosedale. The scores in this match with Toronto-Rosedale were: Philadelphia, first inning, for four wickets, 162; Toronto-Rosedale, first inning, 156; second inning, for three wickets, 88. Thus the visitors won on the first inning.

OVER THE LINE

Scarcely a City Satisfied With the Rigures.

Though Nearly All the Big Cities Show a Marked Increase - Unjust Criticism.

Washington, D. C., Sept. 2 .- Special to the Detroit Free Press .- The population of something like 50 cities of tne country, according to the returns from the twelfth census, has now been computed and made public.

In almost if not quite every city whose population has been made public, a general complaint has gone up at once after the figures were announced, to the effect that the enumerators had made mistakes and omitted a large number of people, and therefore the total was much smaller than the real facts, if correctly ascertained, would make it. These and many more are the complaints made by most of the ciies, all of which have fallen short of Elk- the population originally claimed from 25,000 to 100,000. While Detroit's grand total of 285,704 is somewhat less than it has been hoped the official figures sition to accept a similar one at Stratwould show, the city has made such man 1, Orontas 2, Zeonne 3. Time, centage of increase, and shows a gain of 61.9, while another Ohio city, Cincinnati, shows the smallest gain, only 9.77, so that she thus falls below Cleveland in total population, and so loses long-cherished title of "Queen City of Ohio."

the same size is great, because of the expectation that the next census would land them in a higher relative position than they were before, and so the disposition to question the accuracy of the count is not an unusual Those who know most of the complete system under which the pres-Park between the London team and the ent census has been taken and is be-Ing tabulated, do not, however, see the most exciting and closest fought how it could have been possible for match of the season. Although the any considerable number of people in Alerts have the championship, the any given city to have been skipped by the enumerators, or how it would have been possible for any names that have been taken by the enumerators to fail to be counted by the punchers and

tabulators. Omaha shows an actual decrease of something like 50,000, or a loss of 26.98 per cent. It is a well-known fact, however, that Omaha has not decreased any in population, but that the city has actually increased several thousand, and that many new houses have been built and are all occupied. The only explanation that can be made of this discrepancy is what has long been an undisputed fact, that in the taking of the census of 1890 the population was absolutely padded so extensively as to show a total far beyond all sense of reason.

It so happens that the census was taken in a way that allows a very prompt disposal of any charge of a failure to count the entire population, and Director Meriam has made a prompt investigation of every complaint that has come to his knowledge. Not only has he investigated these complaints, but he has invited anyone who is dissatisfied with the returns of his city or community to lay before from Fence... him some specific complaint. There is no way for him to reply to the man who complains that this or that city is given 10,000 too small a population, but he has so far been able to show every specific complaint to have been unfounded. Jacksonville, Florida, lately complained that a census taken by local authorities, showed a greater population than that of the census bureau, but investigation showed that the local census was taken when a Democratic convention was in session, and the hotels all packed with guests. "Crammed hotels' is said to have been one of the ways by which Omaha swelled her figures ten years ago. The names of 50 people who claimed that they had not been counted were recently sent to the bureau, but investigation showed that each of was recorded in the returns. The possibility of verifying the figures beyond all question of a mistake rests in the fact that maps were made showing every house and its number on every street in every city, and a record was made of the inhabitants of each house, or if the house was vacant that fact was noted. If the fam-Total......12 ily were away for the time being, that fact was also noted, and hundreds of dollars worth of postage stamps were G. McGreevy. 0 W. not want to skip any names. All criticism of the accuracy of the count in the various cities is, therefore, unreasonable and unjust, and the failure to show large increases must be attributed to some other source, which in all cases has a local explana-tion. The following shows the population of the largest cities:
