# TWO "DEVILS" IN TOWN TOGETHER

### Rival Theatrical Managers Put Same Play on and Broadway Is Much Excited.

New York, Aug. 19. — Oliver Herford's "Devil," Henry W. Savage's presentation, and the "Devil" possessed in common by David Belasco and Harrison Grey Fiske, hit the town simultaneously tonight and roused Broadway to a pitch of excitement so high that nobody went to bed until they turned out the lights in the restaurants.

Mr. Savage produced Franz Molnar's three-act play "The Devil" at the Garden Theatre, the adaptation by Oliver Herford. Mr. Fiske brought out at the Belasco Theatre exactly the same play, but to a different adaptation by Alexander Konta and William Trowbridge Larned.

Both Mr. Fiske and Mr. Savage, by statements in the last 24 hours, to the effect that each had the American rights to the play, with the further intimation by Mr. Savage that Mr. Fiske was playing it low down on him in producing "The Devil" at all, had aroused so much interest generally that when it came time for the curtain to go up at the Garden and at Belasco's tonight at least 1,000 people had been turned away at each place.

Naturally the friends of Mr. Savage, of Oliver Herford and of Edwin Stevens, Mr. Savage's "Devil," crowded the Garden Theatre and applauded tempestuously. While, on the other hand, the friends of Mr. Fiske, of Mr. Belasco, of Mr. Arliss and folks in sympathy with the "independents" swarmed into the Belasco and beat their hands together at every scynical phrase uttered by George Arliss, Mr. Fiske's "Devil."

# LUNATIC CLAWS FACE OF WOMAN SURGEON

### Tied By Policemen, Frees Self and Tries it Again.

New York, Aug. 19. — Dr. Mary Crawford, the woman ambulance surgeon attached to the Williamsburg Hospital, had a desperate struggle with a lunatic today, first while she was administering an opiate and afterwards in the ambulance.

In the first struggle the lunatic broke from the hold of two policemen and sprang upon the woman physician. He was throttling her with one hand and clawing her face with the other when the policemen dragged him away from her and managed to tie him hand and foot with a clothesline someone had handed to them. Hardly had the ambulance started from the home of the lunatic, Herman Pomeranz, when he managed unnoticed to slip the cord from his wrists. Dr. Crawford was sitting on the seat at the rear of the ambulance with the two policemen behind her standing on the step.

The man sprang at Dr. Crawford and dragged her from her seat into the bottom of the ambulance. She fought him off as well as she could, but he grappled with her and was once more clawing her face when the policemen jumped into the ambulance and pounced upon him.

This time the policemen took good care that there should be no repetition of the performance. They beat him into insensibility and carried him into the police station. From there he was taken to the Kings County hospital.

### MAY MEAN LOCKOUT.

Manchester, Aug. 19.—The Lancashire Federation of Cotton Spinners has decided to reduce the wages of operatives five per cent. If the men decline to accept the reduction they will be locked out for a month. Notice to this effect will at once be given to the operatives, 200,000 of whom would be immediately affected in the event of a refusal to accept the demands of their employers.

If the spinning operatives should be locked out the weavers also would be compelled to cease work, which would greatly increase the numbers affected.

### CAPT. DONNELLY DYING.

## YOUR SKIN IN SUMMER

### FACTS FOR OUR WOMEN FOLK!

When you find your skin rough, red and patchy, or dry, scaly and coarse, with sore and inflamed spots here and there, remember there is a reason: There are 2,800 pores on one square inch of that same skin of yours, and these contain seventy feet of tubing, all provided to clear away harmful and waste excretions, but which get out of order when the skin is unhealthy. The value of Zam-Buk lies in the fact that its healing essences and juices can be absorbed by these miniature "skin mouths."

Applied to a rough or inflamed patch, cut, bruise, heat sore, or chafed place, Zam-Buk first lubricates, cools, and soothes the hot surface then heals. That is why children like Zam-Buk. It stops pain so quickly. Applied to eczema, ulcers and festering sores, Zam-Buk first kills the disease germs which cause suppuration and inflammation. Then it builds up fresh tissue.

In this way an eczema patch, ulcer, abscess, ringworm or open sore is removed completely by Zam-Buk, and a cut or burn healed.

For insect stings, sore feet, bruises, chafed places, for eczema, ulcerations, blood poison, chronic sores, and for piles Zam-Buk is without equal. Fifty cents a box at all stores and druggists, or from the Zam-Buk Company, Toronto, for price. Three boxes for dollar twenty-five. This offer is for family use.

# IRISH FARMERS WELL ORGANIZED

### More Than 900 Co-operative Societies, With Membership of Over 100,000.

Dublin, Aug. 19.—One of the largest movements in Ireland, though strangely enough, it is very little known, is the organization of farming and kindred industries.

There are in Ireland more than 900 of these societies, all of them working on co-operative lines. They have a combined membership of more than 100,000. A recent report issued from the headquarters of these societies shows that the annual trade done comes to about $10,000,000, and this trade is rapidly on the increase. This really gigantic movement of industry, spreading in every district, is certainly one of the very brightest signs for the future welfare of the country.

These organizations affect nearly every farm in the whole country. It is a sort of Farmers' Alliance; saving that the political side of the question is left practically undeveloped. The organization of the farming industries of Ireland has gone along so quietly that no outsider knows much about it, and it will come as a surprise to many to learn the strength of this great movement. It is working quietly along Sinn Fein lines—applying the motto "Ourselves for Ourselves" in every department.

#### Favor Home Rule.

While the trading organizations do not exert any political power, and are not seeking for representation for their farmers in the British Parliament, the general feeling throughout all these organizations is strongly in favor of home rule. With 100,000 earnest, industrious farmers, constantly working for the general betterment of the whole country, and with all those farmers in favor of running their own country in their own interests, an immense pressure is being brought to bear on Irish politics, and the main strength of this pressure is in its silent operation.

The opinion of the general public is that Ireland is in a woeful state of industrial degradation. This is far from being the case. The commercial prospects of Ireland today are brighter than they have been for many a year in the past.

#### Ireland Winning Fight.

Through the prosperous outlook in the farming line, and with the peasant proprietary being surely restored to the soil, the outlook is far more promising than it is for the same class of people in England. One thing the Irish have fought for for years, their right to the land; and this fight the English are just entering upon. England is only beginning its fight against landlordism; while Ireland, though still fighting that fight, has won "all along the line."

It is quite true that the recent Government land purchase scheme has broken down—and that presents a serious situation—but Ireland has made it so "hot" for her landlords that the latter are beginning to feel that their grip on the country is loosening. This general feeling—that the people of Ireland have won in their fight for the land—has stimulated the Irish farm industry and brought it to the state of prosperity which it holds.

#### England Has Own Troubles.

In a way, farm organization and industry are forming the "backbone" of the country. In Ireland today there are more small farmers and peasants proprietors than there are in England and Scotland together. Before many years Ireland will take its place in Europe besides Belgium and France, the peasant proprietors of these continental states being more prosperous than elsewhere in Europe. For instance, in France there are nearly 5,000,000 small farmers; while in Belgium there are more than 1,000,000; a very large number considering the size and population of the latter state.

Ireland should have its million peasant proprietors; provided always, alarm is not given to England. The chances are, however, that Ireland will be left alone—which is all she wants—for the simple reason that England is beginning to have "troubles of her own." An immense Socialistic wave is sweeping over England, and one of the most significant signs of this movement is the general demand which is being made by the people, especially by the unemployed, who number fully half a million, for the right to work on the land.

In England most of the land is held by the great landed proprietors. About 600 members of the House of Lords alone own more than one-third of the entire country, and this artificial condition is leading to trouble and social unrest.

# TO ARREST RECEIVER

### A Toronto Waterworks Official's Accounts to Be Investigated.

Toronto, Aug. 19.—Instructions were issued yesterday for the arrest of Geo. Adamson, the former waterworks receiver, charging him with the theft of city taxes to the amount of $2,400. It is alleged that Adamson took in the money while acting as waterworks receiver at the Dundas street branch. The London Guarantee and Accident Company, which bonded Adamson, notified the city treasurer that the amount would not be made good unless Adamson was prosecuted, and proceedings will be taken this week. Adamson has been in the service for thirty years and has repeatedly asked for investigation into shortage.

### CONTRACTOR KILLED.

Montreal, Aug. 19. — Isaac Hutchins, one of the best known contractors in Montreal, was run over and killed by an auto this afternoon. A coroner's jury tonight brought in a verdict of accidental death.

# ADMIRAL REFUSES TO BE DEFEATED

### "I Won't Play," Said He, and the Manoeuvres Are Suddenly Stopped.

Marseilles, Aug. 19.—Owing to the refusal of a rear-admiral to permit his squadron to be "captured," as ordered by his superior officer, the French naval manoeuvres in the Mediterranean have aoruptly terminated.

The incident, which has caused much amusement as well as some feeling among the partisans of the two officers concerned, involves Vice-Admiral Germinet, the French commander-in-chief, and Rear-Admiral le Pord, commanding the second division.

Vice-Admiral Germinet arranged that the "hostile" fleet, which he commanded in the manoeuvres, was to capture Rear-Admiral le Pord's division in the roadstead at Porto Vecchio. The rear-admiral received an intimaton that he was to be taken by surprise and was to allow his ships to fall into the hands of the "enemy."

Instead of obeying orders and permitting Vice-Admiral Germinet's fleet to swoop down on his squadron, Rear-Admiral le Pord promptly put to sea, and when the "enemy" arrived Porto Vecchio roadstead was empty.

Vice-Admiral Germinet was chagrined when he found that his plans had been upset, and he immediately terminated the manoeuvres. He followed this with an order condemning the "sentimental consideration" which inspired the actions of Rear-Admiral le Pord.

Naval experts consider that Vice-Admiral Germinet should have accepted the altered conditions and gone in search of the "opposing squadron."

# WELCOME BY WIRELESS

### Australia's Governor Sends Gracious Message to Uncle Sam's Fleet.

Sidney, N. S. W., Aug. 19.—Lord Northcote, governor-general of Australia, has sent by wireless telegraph to Rear-Admiral Sperry, commanding the United States battleship fleet, the following message:

"On behalf of the Commonwealth of Australia, I tender from the whole of its people, a hearty welcome to the American fleet, which represents so magnificently our friends and kinsmen of the United States. I hope you have had a good voyage from New Zealand. On your arrival here you will receive an enthusiastic greeting from this part of his majesty's Empire."

The following answer has been received by wireless telegraph from Admiral Sperry:

"To Lord Northcote, the governor-general of Australia:

"On behalf of the Government of the United States and the Atlantic fleet I thank you most heartily, and through you the people of the Commonwealth of Australia, for your gracious message of welcome to the American fleet, the officers and men of whom are looking forward with the most pleasurable anticipations to making the acquaintance of their kinsmen, residing in this great member of the British Empire."

# GERMANS FURNISH GUARD

### S. M. S. Freya Will Take Part in Nova Scotia Celebration.

Halifax, Aug. 19. — Successful arrangements have been made for the officers and crew of the German training ship H. M. S. Freya to participate in the ceremonies on Wednesday morning at the province building in celebration of the one hundred and fiftieth anniversary of the establishment of representative government. The matter came about through the thoughtfulness of Commander Maas of the Freya, who informed the German consul that, if acceptable, he would be pleased to furnish a guard of honor. The proposal, when conveyed to the celebration committee, was followed up immediately, and permission obtained for the Germans to land. With the Germans there will be three guards of one hundred men each. A large number of invitations for the unveiling have been issued. The official proceedings of the day will be opened with two 21-gun salutes at 9 o'clock a.m. Wednesday, one to be fired from the Citadel and the other from the ship Freya. The salutes will be fired alternately, one gun from the Citadel and one from the ship, until forty-two guns have been recorded.

The unveiling of the memorial tablet at the provincial building square will take place at 10:30, followed by addresses by Lieut.-Governor Fraser, Chief Justice Townshend, Lieut.-Governor MacKinnon, of Prince Edward Island, Hon. J. N. Armstrong, who proposed the celebration, Hon. W. A. Weir, Quebec, and Premier Hazen of New Brunswick.

# A PLEASING VISITOR FROM OLD LONDON

### Rev. T. I. Stockley, Addresses a Large Audience in the East End.

There was a splendid gathering at Adelaide Street Church last evening to hear Rev. T. I. Stockley, pastor of the West Croyden Tabernacle, London, Eng., the large schoolroom being filled with a closely-attentive and deeply-interested audience. The reverend gentleman, who is a successor to Rev. James Spurgeon, is a very pleasing speaker, presenting his subject in a simple, but earnest and convincing, manner, with many well-chosen illustrations. He has no use for "new theology" fads, but tells "the old, old story" in all its simplicity and forcefulness.

The preacher took his text from Romans, vi., and part of verse 16: "Yield yourselves unto God." The religion of Christ, he said, differed from all others, in that it shows what God has done to win man, instead of what man should do to win God. Dealing with the doctrine of Christ's atonement, for man's sin, by which the demands of divine justice were satisfied, the speaker showed that by the sinner's surrender to God he became possessor of the perfect and precious robe of Christ's righteousness, which is God's gift to those who are justified. The price of all the privileges summed up in this letter of Paul's is full surrender. It is not simply what we have, but ourselves that we must surrender. "This course," the preacher urged, "is the pathway to the deepest satisfaction of the Christian life. Conflict and unrest cease when we submit to our rightful king. Happy is the soul that intrusts all it is and has to God. This is the road to the profoundest peace, the largest blessings, and the richest fruitfulness. By Christ's surrender of his life he left the gates of heaven open to his followers. His best is for those who do their best for him. We are not our own, we are 'bought with a price'—let us give Christ his own, and crown him Lord of All."

In speaking with some of his hearers, at the close of the services, Rev. Mr. Stockley said he had muea enjoyed meeting with Pastor Shields, who had persuaded him to visit London, and he was glad that he had come. He was delighted with the beautiful appearance of the city, especially its residential portions, and he felt that if he had not come this way he would have missed a good deal of pleasure.

# THAMESFORD TOPICS

It has been postponed until the weather settles.

The 'bus will be at the disposal of any persons wishing to attend. A good time is anticipated.

Many of the young lads of the village went on the harvest excursion to the Northwest yesterday, and started away in great glee. It is hoped that they will return with the same glee that they started with, having received the full worth of their money in sight-seeing.

Miss Hannah McKay, who has undergone an operation for appendicitis, has so far recovered as to be able to return home on Saturday. All wish for her a speedy recovery. Mr. James McMillan is also progressing rapidly.

# ATTACKED BY VICIOUS DOG

### Little Eight-Year-Old Chatham Boy Bitten by Maddened Cur.

Chatham, Aug. 19. — George Taylor, the 8-year-old son of Mr. and Mrs. Adam Taylor, Witherspoon street, this city, was badly bitten by a vicious dog this morning at the home of his aunt, Mrs. T. Gray, concession 4, Chatham Township. The little fellow was badly torn about the face, and, had it not been for the timely assistance of his uncle, it is claimed the dog would have killed him.

It appears that last night a number of sheep belonging to Mr. Gray were worried by dogs, and this morning it was necessary to kill one of them. The little fellow accompanied his uncle to kill the animal, and, after doing so, they took the sheep near to the stable, and Mr. Gray began the work of skinning the carcass. When partly through he had to go to the staole for something, and, during his absence, the fight between the boy and the dog took place. The little fellow placed his hand on the body of the sheep when suddenly the dog pounced upon him. The boy's screams were heard by Mr. Gray, who soon rushed to the scene, and found the dog attacking the boy. One tooth passed through the upper lip, tearing it considerably, and his neck was also badly bitten and cut. The little fellow received a very severe fright and shock.

The dog days are now on, and the bite of a dog is said to be very dangerous. Hydrophobia or rabies is liable to set in. The little fellow was brought to this city, adn his wounds were dressed by Dr. J. W. Rutherford. The dog was shot immediately after the accident.

# STOLEN RABBITS WERE INOCULATED

### Animals Infected With Tetanus and Tuberculosis Thrown on Market.

Paris, Aug. 19.—An incident which occurred at a hospital proved how vivisection may be a source of public danger. In an open space between the hospital and the fortifications are kept a number of rabbits, all inoculated with germs of some disease or other. A few nights ago burglars penetrated into the inclosed space and stole 14 rabbits, unaware, no doubt, that the animals had been inoculated, some with germs of tuberculosis and others with germs of tetanus.

Vivisectionists will perhaps say that if the thieves ate all 14 rabbits their decease would not be a great loss; but it is improbable that the thieves ate any of the rabbits, as it was to their interest to sell them as quickly as possible, and no doubt they were soon disposed of to unsuspecting persons. One shudders to think what the effects may be.

The hospital authorities have set the machinery of the police in motion, but the chances of finding those 14 rabbits among the vast quantities consumed in Paris every day is microscopic.

The pen prescribed for Italian schools is long and pointed, pierced three times above the crack.
