Chicago, Nov. 18.—Unsettled weather and the fact that the receipts in the Northwest were smaller today tended to strengthen the price of wheat. Assertions that steamship rates to Great Britain had become a little easier helped also to some extent to encourage the bulls. On the other hand, lower quotations from Liverpool acted as a check on the buying here. After opening ½c to ¾c off to ¾c up, with December at \$1 03½ to \$1 04¾, and May at \$1 05½ to \$1 05¾, the market scored moderate gains all around.
