FREES McLEOD OF SHOOTING CHARGE

WINDSOR, March 15.—Fred McLeod, Windermere road, Walkerville, tonight was acquitted on a charge of shooting and wounding William Dowdell, London, Ont. Testifying for crown, Dowdell admitted breaking into McLeod's home. He went there to settle a liquor debt with McLeod, he said. Questioned by Barrister Wilson, counsel for defense, Dowdell admitted having a criminal record of more than 20 years. McLeod said he shot Dowdell in self defense in his home.

DR. STEVENSON OPPOSES BILL ON FARE RATES

Cites London Situation in Legislature as Argument Against Measure.

SECOND READING PASSED

Act to Prevent Cities Bonus-ing Industries Also Reaches Committee.

TORONTO, March 15.—Shall a municipality of Ontario longer be permitted to bonus an industry to locate in its midst? That question, which has been debated many times, was again the predominating subject of legislation in the Provincial Legislature this afternoon when a bill to prohibit such a practice was up for second reading.

Even after a long debate it passed its second reading and goes to the committee of the house.

Last year a similar bill was finally killed. One of the most potential arguments against it at that time was that there was no law prohibiting municipalities in the province of Quebec bonus-ing industries and therefore the bill would place Ontario towns at a disadvantage.

However, Provincial Secretary Nixon this afternoon stated that Quebec has since put an act into force which therefore that argument is swept away. The understanding under which the bill goes to the committee is that it will be toned down a bit and may allow some form of bonuses although preventing cash bonuses and perhaps tax exemptions.

The bill, which would empower the railway and municipal board of the province to fix rates on electric railways in any municipality, regardless of any agreement the railway company may have with that municipality, also passed its second reading although it had a very narrow squeeze. It was up a few days ago and withdrawn for the time being. It was stated that London and Hamilton would be the cities most affected should the bill become a law. It was strenuously opposed by H. A. Stevenson, M. L. A., for London.

Rebuild Dairy School.
The minister of agriculture issued a statement announcing that the Eastern Dairy School would be rebuilt in Kingston. The old school was burned last summer and a number of towns sent deputations asking that it be erected in their communities. Hon. Mr. Doherty announced that the new school would be larger and carry a much wider sphere of work in order to supply the needs of the dairying sections of eastern Ontario. The facilities offered for co-operation with Queen's University was one of the reasons given for keeping the school in that city.

First reading was given the bill which would force the township to bear a 50 per cent share of grants under the mothers' allowance act to persons resident in the township. At present the county pays this. The remaining 50 per cent is paid by the province.

In answer to a question Premier Drury said that Peter Heenan of Kenora had been recommended to the government for a place on the hydro-electric commission, but the government had so far taken no action in the matter. The premier said, however, that he had never received any recommendation to this effect from either E. W. Backus or Lewis Alstead.

The bill of R. Cooper (Welland) to give the provincial railway board the right to fix the rate of fare on electric railways, brought a strong attack from Dr. Stevenson, when it came up for its second reading.

Cites London Situation.
"We in the city of London," said Dr. Stevenson, "have fought long years to obtain the present conditions and agreement with the street railway company in that city, and it is most unfair that we should now have an act passed which would override that. We are going to take over that railway in 1925, and this would enhance its value. This bill should be killed right here."

He said the bill would lose friends for the government, and it was unjust that such an act should be passed that would enable the company to go to the railway board and get its fares increased beyond what their contract called for.

Charles McCrea (Sudbury) took the opposite view, maintaining that it was not fair to hold companies to agreements passed years ago when conditions had so greatly changed. He argued that public utilities should not be treated as private concerns. They had to provide a safe and efficient service for the public, and they could not do so if they did not get sufficient returns to keep up such a service. No municipalities would vote to raise the street car fares. He thought London wanted to starve the railway in that city in order that it could take it over cheaply, to which Dr. Stevenson replied that the city was ready now to take over the rail-

Construct Mausoleum in Brantford Cemetery.

BRANTFORD, March 15.—A recent erection has been completed in Greenwood Cemetery that has been attracting a good deal of attention. It is a mausoleum which Mr. Richard Waddington has had built as a family vault. It is quite close to West street, and many people have been admiring it in passing. The structure is of buff brick, with trimmings of marble in panels on the front of it where the inscriptions will be made. One of its chief beauties is the bronze door, which is a massive and handsome piece of work. It has been completed with a tile roof.

The vault will hold six caskets. Brantford people have not favored this manner of taking care of their dead very much up to the present time, but the structure put up by Mr. Waddington is quite an addition to the cemetery.

way if the company was ready to give it.

Hay Supports Bill.
Wellington Hay, Hon. Mr. Rollo, and Thomas Marshall supported the bill, while J. C. Tolmie and E. Watson opposed it. Speaker Parliament ruled that the "yeas" had it when he called for a vote, and the bill passed the second reading.

The discussion over the bill to prohibit bonuses, introduced by W. A. Crockett (Wentworth), was largely as to whether smaller municipalities should have freedom to say whether they wanted to bonus industries or not. Wellington Hay thought that if bonuses were prohibited by the bill there would be floods of private bills every session from municipalities seeking to make bonuses legal by special acts. Hon. Howard Ferguson thought the proposed bill would encroach on municipal rights.

Sam Clarke supported the bill, claiming bonuses was a vicious practice, as did also Hon. Mr. Rollo, R. R. Hall and P. Mills. Hon. Mr. Drury thought the bill should at least go to the committee. The bill passed second reading.

Tomorrow's program in the Legislature provides for the speech by Provincial Treasurer Smith on the budget, and the introduction by Premier Drury of the government's radial bill.

REVEALS SCHOOL GRANTS.
TORONTO, March 15.—Hon. F. H. Grant, in the Legislature today, in replying to a question by W. R. Cooke, gave the house statistics to show the division of provincial grants between public and separate schools. The statement shows that the aggregate to the public schools was \$1,510,289, and to the separate schools, \$125,627.

SCOTS WIN IN CONTEST
A. Y. P. A. of Listowel Holds a Social Evening.

LISTOWEL, March 14.—The A. Y. P. A. held a social evening tonight, the program being in the form of a contest between the Scotch and Irish, the former winning by several points. Irish numbers were: Vocal solos by Dr. Taylor and Evelyn Stuart; recitations, Rev. W. Dunbar and Flora Nicol; vocal duet, Misses Helen Hay and Kate Nickle; violin and piano duet, Mrs. Horning and Thelma Rennie. Scotch selections were: Highland Fling, Misses M. and K. Ross; solos, Mrs. A. Hamilton, Stafford Pelton, the latter in kilts and personating Harry Lauder; recitation, Lloyd Hall; dialogue, Misses M. Morris and N. Wilson; description of a trip through Scotland, Miss Erie Hawkins.

OPERATE SECOND CHIPPAWA UNIT

TORONTO, March 15.—The hydro-electric power commission of Ontario placed in operation today the second unit of the Queenston-Chippawa development, having a capacity of 55,000 to 60,000 horsepower.

The commission arranged for the cancellation today of contracts for the supply of 25,000 horsepower, and the new generating unit will at once be placed on half-load to take care of this demand. Other arrangements and contracts for the supply of power to the commission terminating before the end of the month will render necessary the operation of the new unit under full load.

The third unit is being installed, and it is expected will be in operation in the course of the next three months.

The cancellation of contracts which will fully load both generating units of the Queenston-Chippawa development will result in a revenue to the commission of approximately \$2,000,000 per annum, according to a statement given out by the commission tonight.

CHEAPSIDE
Special To London Advertiser.

CHEAPSIDE, March 14.—Rev. R. F. Meyer preached in the M. E. Church at Jarvis on Sunday night. There is an epidemic called the "grippe" visiting a great many people in this vicinity.

Mr. Lorenzo Weiderick from Buffalo is visiting his mother, Mrs. Julia Weiderick.

Mrs. S. Forrest from Toronto was buried in the M. E. Cemetery on Tuesday last.

The monthly meeting of the W. M. S. will be held at the home of Mrs. E. Lofthouse on Tuesday next.

APPOINT NEW OFFICER.
Special To London Advertiser.

TARA, March 14.—At the March meeting of the Tara Council, the resignation of J. N. Monahan as constable, was received and accepted, and the appointment was given to Frank Bailey, who will commence his duties at once.

PROVINCIAL POLICE SEEK JEAN MOORE

Kitchener Branch Office Ordered to Investigate Case of Girl Missing Two Weeks.

ATTORNEY-GENERAL ACTS

Opinion Held by Some That Young Woman Has Gone to United States.

Special To London Advertiser.

KITCHENER, March 15.—As a result of instructions received from the attorney-general's department, the local office of the provincial police has taken up the case of Jean T. Moore, who has been missing from this city for two weeks.

It is not expected, however, that much will develop at this late day from whatever the provincial police can do. It is thought that the girl, if she is still alive, has had plenty

of time to get a good distance from this city, and some are leaning to the view that she may have crossed the border into the United States. If the girl ended her life in either the Speed River at Preston or the Grand River at Galt or Freeport, the high waters by now would have washed her remains into the lake. The search will be continued, however, in the hope that even at this late juncture some clue may be hit upon which will lead to a definite conclusion of the baffling case.

Foreigner Fined \$200.

Magistrate Blake presided in a rather peculiar liquor case here today in connection with a foreigner, who is a farmer near Elmira. The man was accused of running a still, and two barrels of juice registering about thirteen per cent alcohol were found at his farm. He pleaded he was only making home wine from a recipe received from a Bulgarian a year ago. The crown could not understand how the man remembered the recipe so long. Owing to the fact that the man has a sick wife and a small family, the case was adjourned pending application for executive clemency. He was fined \$200.

FISHERMEN MEET GOVT. OFFICIALS

Representatives Gather in St. Thomas To Discuss Problems of Lake Erie Industry.

HOPE FOR GOOD RESULTS

Believe New Markets Will Have To Be Found for Fish.

Special to London Advertiser.

ST. THOMAS, March 15.—Several matters of great importance to the fishermen of this district were discussed at a conference between representatives of the provincial and federal governments and officials of the Lake Erie Fishermen's Association, held in the Grand Central Hotel of this city.

It was the first meeting of its kind ever held in the province, and prob-

ably will prove to be the first series of get-together meetings, to which it is hoped many things benefit to the fishing industry in Canada will develop.

None of the discussion or decision reached at the meeting have been given out for publication as yet, but it is understood that much of the business transacted arose out of the annual convention of the Fishermen's Association held in this city a few weeks ago.

Among the leading questions discussed at that time were regulations concerning pound and gill fishing restrictions, and means of combating any ill results in Canada as far as fishing is concerned, arising out of the possible enforcement of the Fordney bill in the United States. A new market for new markets is foreseen by the fishermen, for it is feared that the market in the United States for Canadian fish will be practically closed by a tariff wall.

The department of fisheries of the Dominion government was represented by Prof. E. Prince, while representatives of the provincial government were A. W. McLeod, G. H. Rapsey and G. A. Cox.

SUITS-COATS-DRESSES

CORRECT AND EXCLUSIVE

Responsive and in harmony with the call of the season which reclothes nature's realm anew with freshness and beauty, we are presenting our

NEW SPRING STYLES

Which reflect in fabric, color and finish the latest productions in Ladies' Garments from Paris and New York.
