Aver's Sarsaparilla. Since then Mr. LELAND has recommended cases, and he has never yet heard of its failure to effect a radical cure. Some years ago one of Mr. LELAND'S farm

Hor ing of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enormously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. Leland's direction, was supplied with AYER'S SARSAPA-RILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and ompletely restored the limb to use Mr. LELAND has personally used

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple it requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as arock. It can be put on any carriage in use. Persons ordering Buggles or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880
