being compelled to drink the filthy water of Toronto Bay, would it not be well to open a channel through the Island at the waterworks cut, to allow the lake water to flow into the Bay, as it would be certain to do during the prevalence of southerly winds. This would help to purify the Bay water at the point from which we now get our supply, and the channel could be closed when repairs to conduit are completed, before any damage could be done the Island from the storms that set in late in October.

The above suggestion is well worthy the consideration of the Engineer. Such an opening as is suggested could be made in the course of a few days and it would immediately improve the quality of the water.—Ed. World.
