

WORRIES IN THE HOME

It is These That Cause Many a Break-down in Health.

Almost every woman at the head of a home meets daily with little worries in her household affairs. They may be too small to notice an hour afterwards, but it is the same little worries that break down the health of so many women.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brookline, Ont.

stative and pink carnations. Their gold necklace and pearl pendants were the gift of the bridegroom.

The groom was supported by his twin-brother, Mr. Richard Enape, as best man.

After the ceremony the bride party repaired to the home of the bride's parents, where Mrs. Jardine, mother of the bride, received over eighty guests who extended their felicitations to the young couple. She was beautifully gowned in a Liberty creation of black and white charmeuse with picture hat to match and was assisted in receiving by Miss Chambers, who was smart in black and silver; Miss Marjorie Snape, in a lovely pink gown; and Mrs. Seymour Biggs, also smartly gowned. The bride was decorated with the ribbons of the family clans and was cut with the "skene thu."

Many lovely gifts were received by the young people, together with messages and cables of congratulation from many parts of the world. Later Capt. and Mrs. Colman Snape left on the first stages of their journey to Europe, where they will travel for some months and en route will be the guests of Col. and Mrs. Murray McLaren at St. John for a few days before sailing for England.

CATHEDRAL SCENE OF PRETTY WEDDING.

Miss Marjil Jardine Became Bride of Capt. Colman Snape Saturday.

(From the Victoria (B. C.) Daily Times)

On Saturday, December 26th, at Christ Church Cathedral, Very Rev. Dean Quainton officiated at the marriage of Marjil Jessie Keswick, only daughter of Mr. and Mrs. John Jardine of 30 Douglas Street, Victoria, and The Rancho, Pembina Crossing, Manitoba, and only granddaughter of the late Mrs. Jardine of Edinburgh, to Capt. Edward Colman Snape, M.C. late Imperial R.F.A., son of the late Charles Colman Snape of Taunton, England and Mrs. Stewart Noble.

The bride was lovely in a gown of ivory satin, with hand-embroidered silver tunic bordered with white fur and silver ribbons, the short train and veil of lovely antique point Limerick lace, being a family heirloom. A bouquet of white carnations and cyclamen completed her toilette.

The groom, Mr. Brian Waltheworth of Seattle, looked charming in a gown of pink embroidered ermine with black picture hat and carried a bouquet of pink carnations. Two little bridesmaids, Miss Mollie Seymour Biggs, niece of the bridegroom, and Miss Margaret Whyte, wore dainty frocks of tulle mauve satin and carried baskets of dull gold filled with mauve

Minard's Liniment for Sprains and Bruises.

MUNICIPAL COUNCIL PROCEEDINGS

(Continued from Page Three.)

Due from Collectors \$829.91

Available for 1925 Acct. \$2225.11

Our amount available for 1925 is somewhat larger than last year, and can be accounted for in that there were certain bills due us from former years amounting to between \$4000 and \$4500, the greater part of which I have been able to gather in during the past year.

The amount due from Collectors is about the same as in former years, and the Collectors who usually clear up their payments according to the terms of the bonds have done so.

The Municipality has suffered a distinct loss in the passing of one of its veteran Collectors, the late Andrew Shaw, who was always among the first to pay up his Collectors roll in full.

One coupon (\$10.) outstanding is the only item remaining unpaid.

Statements of General Account, Contingent Account, Forest Protection, and Sinking Fund Accounts are appended.

Yours faithfully,

D. M. OUTHIT, Treas.

General Account:

Table with 2 columns: Description and Amount. Includes Cash on hand Jan 1st, Collectors, 1924 Accts., N.S. Hospital, Bills Payable, County Hospital, County Home, Contingent Acct., Forest Protection, V.G. Hospital, Towns, Joint Acct., Total Receipts.

Payments:

ANNUAL MEET N. S. FRUIT GROWERS

(Continued From Last Issue)

side on what is most suitable for them an alteration might be made in the present Fruit Marks Act that need only apply to Nova Scotia fruit.

He pointed out that the so-called free-run pack, marked No. 3, used by some, though apparently contrary to the Fruit Marks Act, is made legal by the purchase from the Fruit Department of a trade mark, and while this practice is very satisfactory to the few now using it, he believed it should be stopped, as he said it has no definite standard of quality and so guarantees nothing to the buyer.

Concerning warehouse ventilation, and loss from decay and softening, blamed to excessive use of Nitrates, he suggested that it might be largely due to improper ventilation. In any case, he said this over-ripening or softening of the fruit needs careful attention, and he urged that under no circumstances should the standard be lowered.

Short Course Helpful.

The course of instruction carried on by the Agricultural Department under the supervision of Dr. Cunningham's four week Extension Course held in the demonstration building at Lawrenceton last winter exceeded expectations in its success and plans are already laid for another this winter. He urged giving this movement united support to help to solve one of the country's most vital questions, that of keeping the boys on the farms.

Excellent work he said has carried on by the Federal Department through Prof. Blair, at the Experimental Farm Kenville, and A. Kelsall, of the Entomological Laboratory, Annapolis, also by the Provincial Department through Dr. Brittain, Provincial Entomologist, who, judging from reports has this past season wrought havoc among the green apple bugs, with contact dusts.

"Realizing the loss through any curtailment in these Departments, and the difficulties in which the Provincial Division must necessarily be placed by the withdrawal of the Federal Grant, would we not do well to impress upon the Provincial Government our appreciation of the work being done, and urge that this Department be kept up to full strength with Provincial Funds?" President Fitz-Randolph asked.

Bright Future.

No branch of agriculture he said, has brighter prospects for the future than fruit raising in Nova Scotia, whose geographical advantages are well known, and he thought it reasonable to predict that the most advanced apple growing districts will look with envy at Nova Scotia achievements.

Canadian Pulp Concern

Fraser Companies Reported to be Building New Mill in Maine.

Montreal, Canada may lose another paper mill, to be built in the United States. It is stated that the Frasers, of Edmundston, N. B., are planning the erection of a book-paper mill at Madawaska, Maine, which is across the river from Edmundston. The mill is being located in the United States because of the American tariff on book-paper, and will presumably use wood or pulp from Canada. The Frasers are already large manufacturers in Canada of sulphite pulp, which is the chief constituent of magazine papers.

A telegram by The Financial Post to Fraser Companies, Limited, asking confirmation of the report, brought only the reply that the president of the company is abroad at the present time. Another executive official of the company declined to discuss the company's reported plans.

Will be 200-Ton Mill.

It was announced some time ago that a 200-ton-a-day mill would be built at Madawaska, but at that time the backers of the project were not known. Now it is stated that Fraser Companies is behind the deal. The company desires to establish a steady outlet for its sulphite pulp by controlling its manufacture into the finished product—book paper—From the standpoint of the Fraser Companies this should be an excellent move in making the company more or less independent of the usual wide fluctuations in sulphite markets. Magazine paper will be made at the

aber; Guysboro, T. A. MacKeen, Annapolis; Victoria, Mrs. Alexander Anderson, Baddeck Falls; Cape Breton, Dr. A. N. MacLennan, Sydney; Inverness, Rev. J. N. MacLennan, Glendale; Richmond, Donald Urquhart, West Bay. Treasurer, W. S. Blair, Kentville. Auditors, J. R. Webster, R. S. Eaton of Kentville.

Executive—M. K. Ellis, Port Williams; Roy Clarke, Woodville; V. B. Leonard, Clarence; W. C. Spurr, Melvern Square.

Representatives to Farmers' Association—C. Perry Foote, Lakeville; R. L. Palmer, Berwick.

Representative to Shippers' Association, Eric Leslie.

Resolution Committee—Rev. H. S. Shaw, V. B. Leonard, M. K. Ellis.

Following election the report of the Shipping Association was read, signed by Captain W. S. Rawding, Secretary, which report was discussed at length.

The new President then took the chair, after which F. W. Bishop took up some questions left over from the account of the Horticultural Council, and M. K. Ellis gave notice that he would bring up the matter of an increase in membership fees at the next annual meeting.

The Chairman of the Resolution Committee, Rev. H. S. Shaw, then presented resolutions thanking the town of Annapolis Royal for the use of the new Town Hall, to Prof. W. S. Blair for the splendid exhibit of apples brought from the Experimental Farm at Kentville; and to the various speakers. Other resolutions related to financing the investigation of orchard pests and disseminating information regarding the same, and to the early importation of tender fruits into Canada.

The resolutions were widely discussed by M. K. Ellis, F. M. Chate, F. W. Bishop, C. Perry Foote, E. C. Johnson, and R. L. Palmer.

A resolution was then read by C. Perry Foote to request the Federal Government to regulate the sale and manufacture of insecticides and fungicides, to avoid fraudulent character and injurious effects upon the trees and plants; to be caused to be printed upon the package a guaranteed analysis, showing percentages of ingredients; and further, that a copy of this resolution be forwarded to the Horticultural Council and Minister of Agriculture. This was moved by H. Bartsaux, seconded by A. M. Gold, and spoken to by A. Kelsall, V. B. Leonard, A. Fitz-Randolph.

The discussion on this paper was cut short by the rapid approach of train time, and after it was moved by K. M. Ellis, seconded by E. C. Johnson, that P. G. J. Comeau be made an honorary member of the Association, as a mark of appreciation for his continued interest in the Annapolis Valley, the meeting adjourned.

The Wednesday evening session of the Fruit Grower's Convention was also largely attended, and opened with an interesting talk on "Bug Moth" and the spray used for it, by Arthur Kelsall, Head Entomologist of the local Laboratory. He was followed by Mr. Fulton, Assistant Fruit Commissioner of Ottawa, who spoke of the care necessary in handling fruit.

Malcolm B. Davis, of Ottawa, then gave a very comprehensive address on spraying, pruning, soil management and chemical fertilization—a letter from J. Elliot Smith on the apple question in England was read by secretary, and the rest of the evening was taken up with a thorough discussion of these subjects.

Western hard wheat is the best wheat in the world. Purity Flour is made only from the finest Western wheat. Purity, therefore, is unexcelled. PURITY FLOUR More Bread and Better Bread

new plant. Work on the factory will start early in the spring, it is expected, and it will be ready for operations next fall. Efforts have been made to keep secret plans for construction of the new mill. Their Other Big Interests. The Fraser Companies, Ltd., are among the largest landowners in New Brunswick. They own large tracts across the St. John River from Madawaska. At Edmundston, N. B., the organization operates a 150-ton sulphite fibre mill. Recently associated interests sold a large tract of land in Nova Scotia to the Hollingsworth and Whitney Co. The best engineers in the country are said to be working on plans for the new factory, which will be modern in every respect. One hundred acres have been obtained for employment houses. The daily output will be 200 tons. Government is a contrivance of human wisdom to provide for human wants. Men have a right that these wants should be provided for by this wisdom.
