THE COMING BOSTON SHOW.

It is the purpose of the Boston management to offer to the breeders of the world by far the grandest opportunity yet offered for the handsome and substantial return to themselves, as well as the unquestioned honors that must go to the Boston winners at the first large show held in America on the opening of the new century. We hope to set a pace for quality that will start the ball rolling on to better poultry than has ever been seen in the whole world.

The novice classes at the last Boston Show was an introduction to what can be done to advance the interest of the amateur. Under our rule, those who have never won a first or second prize at the Boston Show on the variety they enter, may show in the novice classes. This presents the opportunity long clamored for, where those who are inexperienced in the art of exhibiting poultry can show their fowls unhampered by the fear that they will be overshadowed by the old and successful exhibitors.

Specimens entered in the novice classes are penned next to and following the same variety in the regular classes and are judged in classes by themselves, under the same judge who passes upon the variety; the same awards are made and the same cash prizes paid for as in the regular open classes. It simply provides for the amateur fanciers the chance of holding an exhibition of their stock under the same roof and side by side with the time-worn veteran, where the novice can compare his stock with that of the veteran, and in his presence, at the same time winning the honors in his own classes, and the additional honor of being published to the world as a new and successful exhibitor at the Boston Show.
