

ers, who are ever ready to burden, but seldom relieve; and we are satisfied that all these things are working for good, and the day will come when many will gladly shake off "the yoke of bondage" that enthrals them now. We are looking and praying for the coming of that happy day.

*Report of Bible Work and Teaching in the West End,
during month of April, 1893.*

One hundred and thirty-one visits have been made, and 140 tracts distributed to French-Canadian families, some of whose members are Protestants, and who have moved into the neighborhood. We hope they will attend the church services, and send some children to the day school. The average attendance at the day school, for April, has been only forty-five, on account of quite a number having moved.

The money sent for the poor was very useful in helping three of the most needy families, who had sickness among their children. There is not so much poverty now, as the women can find work.

May—one hundred and eighteen visits have been made, and a considerable amount of reading matter distributed. Beside the tracts I have had from Mrs. Ross and the Bible Room, I have got a good many French and English papers from various members of the Society. Some I have given away; in other cases have lent them for a week at a time, so that all our people have an opportunity of having good reading, and they appreciate it. Average attendance in the school for the month, fifty-five.
