

MARKET REPORT.

No very startling surprises have been given the market this week, but the volume of business continues to increase at better prices. Probably the most active stocks have been the Deer Park, Red Mountain, Evening Star and Mugwump. The REVIEW prophesied that when Deer Park started to move it would go straight to a dollar without a fall. It is on the road now. Two-hundred and thirty dollar ore, from the lowest grade prospect on the surface in Trail Creek justifies the advance. Great Western has been a well-handled stock and there is an active demand with few sellers on the present appearance of the property. Mugwump is selling freely at the advanced quotation. A big block of St. Elmo is reported sold in Toronto. Development work will be started on the Heather Bell under the superintendence of J. Moynahan. The treasury stock will be put on the market at 10c within the next seven days, as soon as the final payment is made on the property. The public cannot do better than buy this stock at bed rock. Developments are likely to take place on the Colonna shortly, which will materially enhance the value of the stock. A big consolidation is on the cards, embracing some south belt property, which will treble the value of a stock recently put on the market. The Iron Colt will be put on the market very shortly. It is reported that the management of the Southern Cross and Wolverine Con. is about to place a block of treasury stock on the market. It will be eagerly snapped up.
