

Wyeth's Liquid Malt Extract.

Wyeth's Malt Extract

contains all the nutritive virtues of the best malt liquors in a much higher degree than any other product with which it can be compared, and the least amount of alcohol (3 per cent.) of any like preparation, which avoids the distressing consequences experienced from the use of spirituous liquors, or malt extracts containing a large amount of alcohol.

Wyeth's Malt Extract

is especially adapted to nursing mothers and children, to those suffering from nervous exhaustion, chilliness, and to those unable to digest starchy food. It also acts as a roborant in all cases of debility, and is a most valuable addition to the treatment required in convalescence.

Wyeth's Malt Extract

is practically a liquid bread that is partly digested. It has for its prime object the production of nutriment, and the entire process of manufacture is devised for the purpose of attaining that end.
