

PARAGRAPHIC.

Rochester, N.Y.

Contributes its quota of praise as to the genuine merit of Putnam's Painless Corn Extractor. Henry Heib, Oct. 23rd, 1883, writes:—"Send a dozen for distribution among my friends, for it is as claimed, sure, safe and painless, send quickly." Beware of poisonous substitutes and get only the genuine. Putnam's Corn Extractor, made by Polson & Co., druggists, Kingston.

The London Times describes a new sort of gas lamp, which gives the light of 200 candles at a penny per hour, and which throws out no noxious vapours. It is called the bower lamp.

If you want knowledge you must toil for it; if you want food you must work for it; if you want pleasure you must earn it,—but if you want nice soft hands you have only to use Estey's Fragrant Philoderma.

Many improvements have been made in Upright Pianos in recent years, but the greatest of all is probably that recently introduced by the Mason & Hamlin Company, which not only improves materially the quality of tone, but the durability of the instrument.—*Boston Journal.*

"I am poor," he pleaded, but I am young and strong and could make you happy, I am sure." "Oh, yes," she responded, "possibly; but its principal I want—not men."

Do you feel languid and dull, and have no appetite, then your system is out of order and requires a good bracing medicine. Take a few bottles of Estey's Iron and Quinine Tonic.

Rubber, or gutta-percha, may be united firmly to metal by the following method: Dissolve finely-powdered shellac in ten times its weight in pure spirits of ammonia. In three days the cement will have the necessary consistency. The ammonia penetrates the rubber, and enables the shellac to take a firm hold. When all the ammonia is evaporated the joint withstands the penetration of gas and water.

SCOTT'S EMULSION OF PURE COD LIVER OIL, WITH HYPOPHOSPHITES. In *Strumous Children and Cholera Infantum*. Dr. W. E. Ransom, Hartford, Ind., says: "I find your Emulsion to be an excellent remedy in lung troubles, and especially in Strumous children, and a most valuable remedy in chronic cases of Cholera Infantum."

It is said that a new process for drying lumber has just been discovered. It consists in surrounding the wood with common salt. In ordinary kiln-drying the albumen is killed or destroyed, and the surface dries out first, thus sealing the juices inside, to escape eventually through cracks caused by the uneven expansion of the wood. The new process is vastly better.

"The Old Life Preserver" is what they call *Johnson's Anodyne Liniment* way up in Maine where it is known. This name is well deserved, for it is the best liniment in the world. It will certainly prevent diphtheria, and will relieve croup and asthma instantly.—*Western Paper.*

—Twenty-five years ago there were in New York city two Unitarian churches, and four belonging to the Universalists, and in each case the numbers have since undergone no change.

Expose the Fraud,

Patent medicine vendors are now putting up condition powders in packages as large as a nigger's foot for 25 cents, but they are utterly worthless. One small 25c. package of *Sheridan's Condition Powders* is worth a dray-load of them. *Sheridan's Powder* in large cans \$1.00
