

HOBBEEMA 20th of January 1913

The Newspaper for the month of December did not see the light. This time, January and February numbers are united in one. For that reason we beg to be excused by our suscribers.

Early in the month of December we went to St Paul de Metis to get the machine-ries, and bring them to their new place at HOBBEEMA: but we had to reckon with the weather and many circumstances.

It was only a few days ago that we received them, yet there is much to say: some necessary pieces are missing: lost somewhere!... We had, at a great expense, to replace the most necessary at once, in order to get this Newspaper out. Anyway here I must express my thankfulness to all those who helped the good cause of the INDIAN CREE REVIEW

Right Reverend Archbishop LEGAL O.M.I. D.D., for his kindness and charity: giving to us all the types that were in use at St Albert.

Right Reverend Bishop CHARLEBOIS O.M.I. D.D., who sent us some help with his encouragement and blessings.

All the Reverend Fathers who sent us the prices of old and new subscriptions.

The POSTMASTER GENERAL of Canada, for granting our little publication the full privilege of a great Review.

I must especially mention Mr. KRAMER, general merchant, Hobbema, who built the New Printing office, and forgot to take an account of his time and work.

The GROSS LUMBER Co, Wetaskiwin, who gave the lumber at a great reduced price, and yet are very patient with their debtor.

The NEWSPAPERS and REVIEWS, who exchange copies with us:

The FREE PRESS, Wetaskiwin, who wished us every success.

Thanks to every one; and now Forward for the good of the Cree speaking people.

The REDACTOR.
