NEW YORK—198 Broadway

Laying STANDARD Steel-Tape-Armored Cable Across a Street.

A 50 Per Cent Saving

in the cost of installing underground electric cables is worth considering these days. A cable which can be laid directly in a trench in the ground without conduits may solve the installation problem before you.

STANDARD Steel-Tape-Armored Cables

are designed for this class of service and have in many cases shown a 50 per cent. saving in installation cost as compared with single runs of lead-covered cables laid in conduits.

Write for Bulletin 680 which gives complete information.

PROTECT VALUABLE RECORDS IN THE OFFICE SPECIALTY RECORD SAFE

A Safe made on the most modern lines, not too light for the safety and solidity desired to ensure protection under extreme conditions, and not ponderously heavy to be an immovable fixture in your office.

This Safe can be fitted with Standard Office Specialty Filing Sections for the filing of any kind of business records—Books, Card Records, Letters Documents, etc.

If you require security for your business records, investigate this Office Specialty Record Safe. Full particulars on request.

Records filed in Office Specialty **STEEL** Sections within this Record Safe have out-of-the-ordinary protection.
