

TABLE OF CONTENTS

Executive Summary	vi
List of Acronyms	viii
1. Introduction	1
2. Objectives	1
3. Literature Search	2
4. Analysis Method	3
4.1 Fissile Material Diversion Routes.....	3
4.1.1 Fissile Material Type	4
4.1.2 Generic Diversion Route Based on Facility Declaration Status.....	4
4.2 Facility-Specific Diversion Route or Source of Material Acquisition.....	5
4.2.1 Uranium-235 Route	5
4.2.2 Plutonium Route	6
4.2.3 Uranium-233 Route	7
4.3 Diversion Risk Assessment.....	7
4.3.1 Likelihood of Facility Anomaly (L).....	8
4.3.1.1 Method of Assessing Likelihood of Anomaly	8
4.3.2 Importance of Facility Anomaly to Final Material Acquisition	9
4.3.3 Diversion Signatures	9
4.3.4 Verification Methods	10
4.3.5 Effectiveness of Verification Methods.....	11
4.3.6 Risk of Diversion from Facility (L x I).....	11
5. Analysis Discussion	12
5.1 Examples of Actual Diversion Scenarios.....	12
5.2 Declared Facilities.....	13
5.2.1 U-235 Route.....	13
5.2.2 Pu-239 Route.....	15
5.2.3 U-233 Route.....	15
5.3 Undeclared Facilities	16
5.3.1 U-235 Route.....	16
5.3.2 Pu-239 Route.....	18
5.3.3 U-233 Route.....	18
