Aboriginal Business Canada helps Aboriginal-owned companies grow their businesses and build export sales by providing details on:

- government services and programs
- export counselling
- sources of export financing
- foreign market studies and reports
- contact information for Canadian industrial sectors

Agriculture and Agri-Food Canada

The Agri-Food Trade Service (ATS) is an international business development service for Canadian agri-food exporters. ATS provides a single point of access to a range of government services, including international market information and export counselling tailored to the agriculture and agri-food industries.

www.atn-riae.agr.ca

Tel: (613) 759-7687

Fax: (613) 759-7499

e-mail: eganm@em.agr.ca

ATS provides the following information:

- country overviews which outline the economic, political and socio-cultural situation, as well as information on promotional venues and distribution systems
- directories of international and Canadian trade and government contacts
- advice on how to export
- profiles of worldwide trade events
- market statistics
- information on export programs and services
- trade regulations
- information on investment opportunities
- hot links to web sites on priority/emerging markets
