325-6.—Family SALMONIDÆ, observations on their classification and geographical distribution, 326.—Showing plan of Supreme Intelligence. 327-30.—*Salmo fontinalis*, 330-31.—*S. namdycesh*, observations upon 331-3.—*S. siscoeet*, Agass., 333-36.—COREGONUS, observations on the, 336-9.—*C. clupeiformis*, 339-42.—*C. albus*, 342-4.—*C. apidissimus*, Agass., 344-48.—*C. latior*, Agass., 348-51.—*C. quadrilateralis*, 351-2.—Family CYPRINOIDÆ, distribution, 352-3.—RHINICHTHYS, Agass., 353-4.—*R. marmoratus*, Agass., 354-6.—CATOSTOMUS, difficulties in the study of this genus, 356-7.—*C. aureolus*, 327.—*C. Forsterianus*, Agass., 358-60.—*C. aurora*, Agass., 361-3.—ALBURNUS, 363.—*A. rubellus*, Agass., 364-6.—*Gobio plumbeus*, Agass., 366-8.—*Leuciscus frontalis*, Agass., 368-70.—*L. gracilis*, Agass., 370-2.—*L. Hudsonius*, 372-3.—General observations; all freshwater fishes of North America different from those of Europe; Lake Superior and the lakes north of it constitute a distinct zoological district, 373-5.—These fishes must have been created where they now live, 376.—Deductions from this fact, 377.....246-377

VII.

DESCRIPTION OF SOME NEW SPECIES OF REPTILES FROM THE REGION OF LAKE SUPERIOR.

Hylodes maculatus, Agass., 378-9.—*Rana nigricans*, Agass., 379-80.—*Crotophorus*, sp., probably identical with *C. tergeminus*, 381.—Further list of reptiles of Lake Superior; large size of some species; turtles not found on northern shores of the lake, 382.....378-382

VIII.

REPORT ON THE BIRDS COLLECTED AND OBSERVED AT LAKE SUPERIOR.

BY J. E. CABOT.

Striking scarcity of birds and quadrupeds; causes of this, 383-4.—List of species, 384-5.....383-385

IX.

DESCRIPTIONS OF SOME SPECIES OF LEPIDOPTERA, FROM THE NORTHERN SHORES OF LAKE SUPERIOR.

BY DR. THADDEUS WILLIAM HARRIS.

Pontia oleracea, 386.—*Deilephila Chamænerii*, 387-8.—*Smerinthus modesta*, 388-9.—*Hepiolus argenteo-maculatus*, 389-90.—*Arctia parthenos*, 390-1.—*Arctia Americana*, 391.—*Ennomos macularia*, 392.—List of Lepidopterous insects, taken by Professor L. Agassiz on the northern shore of Lake Superior, 392-4.....386-394

X.

THE ERRATIC PHENOMENA ABOUT LAKE SUPERIOR.

The most minute and careful investigation of drift by the glacialists; whereas their opponents simply deny, 395.—The various erratic basins
