## Where Is Heaven?

Both the wise and the ignorant seem to have superstitious ideas  
and are mystified as to where heaven is. I claim heaven is every-  
where you find man in a happy and healthy condition, for heaven  
is a happy and healthy condition of the soul and body, which is  
contingual to those who live right, act right and do right.

## Where Is Hell?

THE INFIDEL AND THE FOOL SAY THERE IS NO HELL.  
I say there is. What is it? It is a condition or state of  
sickness, sickness, agony and despair, from living in sin, and is  
everywhere and continual for the one who is living in sin. Disease  
is hell. Job was in this state, or condition, suffering in the body  
and also the mind. He that turneth away from his evil ways and  
doeth that which is lawful and right shall save his soul alive.

## THE GREATEST PLEASURE

The greatest pleasure is written in one word, that's health.  
We have all sinned and many are now suffering from their past  
wrong-doings with some disease or complaint, and no one wants to  
live in a suffering condition if they can get a remedy to heal them  
out of their disease. Follow the above instructions, and if you are  
suffering, get a bottle of B'Well, it cures all pain; and a  
bottle of B'Well, it cures Dis-ease.

## WHAT IS B'WELL?

B'Well is a medicine that heals the Sick. It strengthens the  
stomach, regulates the liver and kidneys, it renews lost energy,  
purifies the blood and carries all poison out of the system. It  
brings new life to the one who has lived a reckless life and has be-  
come a human wreck. Turn your back on that kind of a life. Take  
B'Well, it will build up your body and strengthen your mind and  
make you a healthy and happy member of society. It helps the  
drunkard and it helps the smoker to refrain from their gluttonous  
appetites; learn to live right and act right, and if you use B'Well it  
will help you. B'Well contains no poisonous drugs, but is com-  
posed of Roots and Herbs that are carefully gathered from Nature's  
Laboratory. The roots and herbs were created by an all wise  
Creator for the healing of humanity, and no one can visit 167 Dundas  
street without being convinced that the above statement is a fact.  
The result of what medicine can do and has done is there to be  
seen. B'Well expels stomach or pin worms, but it is not a Tape  
Worm Cure.

B'Well is a valuable remedy for the middle-aged lady who is  
nervous and melancholy. It is a real rejuvenator, dull and gloomy  
feelings disappear and the good disposition returns. It brings joy  
to the mind and health to the body, brightens the eye and puts the  
bloom of health on the cheek. This valuable remedy has restored  
thousands of people to health and happiness and is the sufferers'  
friend. This valuable remedy is to be had for \$1.00 per bottle, at  
167 Dundas street. Can be sent by express. Six bottles for \$5.00.  
Take Dundas car to Ossington avenue. My store is in the middle  
of block between Arthur and Halton streets. As Dundas cars do  
not run on Dundas street between Queen street and Arthur street,  
hundreds of my customers have gone blocks out of their way, so  
kindly follow directions and save trouble. Prof. E. L. Mulveney,  
167 Dundas St., Toronto—go south from Ossington avenue half a  
block, on east side of Dundas street.

HOTEL FIRE COST  
LIVES OF MANY

Total of Dead at Omaha May  
Reach Seventy-  
Five.

OMAHA, Neb., Feb. 28.—(Can.  
Press.)—Loss of life estimated all the  
way from twenty to seventy-five re-  
sulted from a fire which destroyed the  
Dewey Hotel, a second-class hotel oc-  
cupying a three-story building, at  
13th and Farnam streets, today. Three  
hours after the fire was discovered it  
was pronounced under control. It  
was confined to the building where it  
started.

The fact that the hotel register was  
destroyed will make it difficult to ob-  
tain a list of the dead, and while the  
manager of the place states that about  
fifty were registered, others who were  
about the hotel declared that many  
of the guests were not registered and  
the total number was more nearly one  
hundred.

Of these not more than 25 are known  
to have escaped. The known dead are:  
Miss Alice Benneive.  
Charles Cumming, jumped from third  
storey, breaking his neck.  
Charles Beverly, waiter.  
James Prakes, Coppermith.

The cause of the fire has not been  
determined. It started in the rear of  
the building, but had gained great  
headway before it was discovered.  
Leaped to Death.  
Charles Cumming, a bartender who  
had a room on the Farnam street  
side of the hotel, jumped from a third-  
storey window and met instant death.

Mrs. C. E. Hawkins, who had a  
room on the second floor, dragged her  
self, Miss Alice Benneive, to a win-  
dow. There Miss Benneive collapsed.  
Mrs. Hawkins jumped and the two  
police men broke her fall she was bad-  
ly injured. Her sister's body is in the  
ruins.

That the basement into which the  
burning interior fell within half an  
hour after the fire started contains at  
least forty bodies is the belief of fire  
chief Salter. There was no way to  
reach them for hours after the build-  
ing collapsed. Only four bodies were  
recovered before the flames drove the  
firemen from the building.

COST SIXTY-EIGHT  
MILLIONS TO BUILD UNITS

Continued From Page 1.  
should be added to the cost of build-  
ing the boats in Canada.  
He pointed out that the United States  
had in twenty years built up one of  
the world's largest navies. He thought  
that if the United States could build  
warships, there was no reason why  
Canada could not. He held that the  
two propositions which had been con-  
sidered, should be submitted for final  
decision to the people.  
(Mr. Currie (E. Simcoe).—"Does the  
hon. gentleman mean to treat us as  
children? The house shouldn't listen  
to such foolish statements." (Laughter.)

Mr. Pugsley, in conclusion, pointed  
out that Hiram Maxim & Sons, the  
shipbuilders, had established a Cana-  
dian branch and spent something like  
\$5,000,000 on the assumption that the  
Canadian Government intended to es-  
tablish a local navy.

Not Cheaper in U. S.  
Hon. Mr. Hazen who followed Mr.  
Pugsley, opened his remarks by say-  
ing: "My hon. friend is always criti-  
cizing me for not speaking often. I  
can only say that I do not find the  
same fault with him." (Laughter.)  
He repeated Mr. Pugsley's state-  
ment that ships could be built in the  
United States cheaper than in Eng-  
land. He pointed out that the United  
States had built two dreadnoughts for  
the Argentine Republic at a low price  
because the shipbuilders had no work  
on hand and did not wish to shut down  
their yards.  
Mr. Hazen said that shortly after he

A Genuine Rupture Cure  
Sent on Trial to Prove It

Don't Wear a Truss Any Longer

After Thirty Years' Experience I Have Produced an Appliance for Men, Women and  
Children That Actually Cures Rupture.

If you have tried most everything  
else, come to me. Where others fail I  
succeed. I have my greatest success. Send  
attached coupon today and I will send  
you free my illustrated book on Rupture  
and its cure, showing my Appliance  
and giving you prices and names of  
many people who have tried it and  
were cured. It is instant relief when  
all others fail. Remember, I use no  
salves, no harness, no ties.  
I send on trial to prove what I say is  
true. You are the judge and once hav-  
ing seen my illustrated book and read  
it you will be as enthusiastic as my  
hundreds of patients whose letters you  
can also read. Fill out free coupon be-  
low and mail today. It is well worth  
your time, whether you try my Appliance  
or not.

Pennsylvania  
Man Thankful

Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—Perhaps it will interest you  
to know that I have been ruptured six  
years and have always had trouble with  
it. I got your Appliance. It is very  
easy to wear, fits neat and snug, and  
is not in the way at any time, day or  
night. In fact, at times I did not know  
I had it on; it just adapted itself to the  
shape of the body and seemed to be a  
part of the body, as it clung to the spot,  
no matter what position I was in.  
It would be a veritable God-send to  
the unfortunate who suffer from rup-  
ture if all could procure the Brooks  
Rupture Appliance and wear it. They  
would certainly never regret it.  
My rupture is now all healed up and  
nothing ever did it but your Appliance.  
Whenever the opportunity presents it-  
self I will say a good word for your  
Appliance, and also the honorable way  
in which you deal with ruptured peo-  
ple. It is a pleasure to recommend a  
good thing among your friends or  
strangers, I am,  
Yours very sincerely,  
JAMES A. BRITTON.  
80 Spring St., Bethlehem, Pa.

Recommend From  
Texas Farmer

Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—I feel it my duty to let you  
and all my friends know that I have  
known what your Appliance has done for  
me. I have been ruptured for many  
years and have tried every other  
truss, but never got any relief until  
I got your Appliance. I put it on last  
November, but had very little faith in it,  
but must say I am now cured. I have  
two weeks, and doing all kinds of farm  
work with ease. While I was wearing  
it, I had a cough and coughed a great  
deal, but it held all right. Words can-  
not express my gratitude towards you  
and your Appliance. Will recommend  
it to all ruptured people.  
30 years. If ruptured, write him today.

## Cured at the Age of 76

Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—I began using your Appliance

The above is C. E. Brooks, inventor of the Appliance, who cured  
himself and who has been curing others for over  
30 years. If ruptured, write him today.

ance for the cure of rupture (I had a  
pretty bad case), I think in May, 1905.  
On November 20, 1905, I quit using it.  
Since that time I have not needed or  
used it. I am well of rupture and rank  
myself among those cured by the Brooks  
Rupture Appliance, which, considering my age,  
18 years, I regard as remarkable.  
Very sincerely yours,  
High Point, N.C. SAM A. HOOVER

Others Failed But  
The Appliance Cured

Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—Your Appliance did all you  
claim for the little boy and more, for it  
cured him sound and well. We let him  
wear it for about a year in all, although  
he was only 3 months old when we let  
him wear it. We had tried several  
other remedies and got no relief, and I  
shall certainly recommend it to friends,  
for we surely owe it to you. Yours re-  
spectfully,  
No. 71 S. Main St., Akron, O.  
W. M. PATTERSON.

## Child Cured in 4 Months

21 Jansen St., Dubuque, Iowa  
Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—The baby's rupture is alto-  
gether cured, thanks to your appliance,  
and we are so thankful to you. If we  
could only have known of it sooner our  
little boy would not have had to suffer  
near as much as he did. He wore your  
brace a little over four months, and has  
not worn it now for six weeks.  
Yours very truly,  
ANDREW EGGENBERGER

## Cured at the Age of 76

Mr. C. E. Brooks, Marshall, Mich.  
Dear Sir—I began using your Appliance

assumed office he had received a  
memorandum from Commissioner  
Roper, of the Canadian navy, dated  
Sept. 20, 1911. A day before the last  
general election, in this memorandum,  
the commander had stated that it was  
not feasible to build warships in this  
country as by the time the ships were  
completed and on the Atlantic coast,  
He believed that it would be obsolete.  
He accepted the blame for inducing  
Hiram Maxim & Sons to locate in  
Canada, and understood that the  
Liberal Government had offered the  
firm 70 per cent. of all the battleship  
construction.

Could Build Vards.  
Hon. Mr. Pugsley said that with the  
\$55,000,000 which Canada now in-  
tended to send out of the country, she  
could build a shipyard on the Pacific  
coast and on the Atlantic coast,  
and have enough money left over to  
make a good start towards the con-  
struction of a Canadian navy. He de-  
clared that the prime minister in his  
speech on Thursday clearly showed  
that the policy of the government was  
not to establish a Canadian navy.  
Mr. German (Welland) wanted to  
know what the government intended  
to do with the young men now training  
for naval officers.

Training for Navy.  
Mr. Borden replied that some of the

graduates of the naval college were  
now serving on the training ships, pro-  
vided by the admiralty, in foreign  
waters. The sailors were still serving  
on the Niobe.

He further stated that he had re-  
ceived a memorandum from the ad-  
miralty to the effect that there would  
be a reduction in the number of ships  
in the British naval service for young  
Canadians.

In reply to a question asked by E.  
M. MacDonald (Picton) the prime min-  
ister stated that the government in-  
tended to increase the scope of the  
naval college at Halifax by pro-  
viding a course of engineering. This  
was, of course, he explained, only  
tentatively suggested.

## MILLION DOLLAR COMPANIES.

OTTAWA, Feb. 28.—(Special.)—The

Ten Reasons Why  
You Should Send For Brooks'  
Rupture Appliance

1. It is absolutely the only Appliance of the kind on the market today, and in it are embodied the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be torn out of position.
3. Being an air cushion of soft rubber, it clings closely to the body, yet never blisters or causes irritation.
4. Unlike the ordinary so-called pads used in other trusses, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness.
7. There is nothing about it to get foul, and when it becomes soiled it can be washed without injuring it in the least.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All of the material of which the Appliance is made is of the very best; that money can buy, making it a durable and safe Appliance to wear.
10. My reputation for honesty and fair dealing is so thoroughly established by old experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending free coupon today.

MARLBOROUGH  
Leads the Band, Gentlemen

It's just the kind of a cigar that puts the "ouch" in all those  
half-price arguments dealers are handing out these days.  
MARLBOROUGH cigar is 5c each, always was 5c each, and  
always will be 5c each. And any man who has never smoked  
a MARLBOROUGH cigar sure enough has an excuse for  
blighting their happy days by smoking the ordinary bargain  
sale cigars and the so-called ten-centers for five. The entire  
filler in MARLBOROUGH cigars is Cuban grown Havana  
tobacco, with every particle of the native aroma fully retained.  
We do not permit hasty artificial sweating, nor any other flav-  
oring matter to blur nature's best tobacco. We season it slowly  
and sweetly to a natural mellow mildness that would be im-  
possible to obtain any other way. MARLBOROUGH is al-  
ways blandly mild and completely satisfying. After you smoke  
your first MARLBOROUGH you will be satisfied to pass by  
all other stores with fanciful claims, and enjoy the fragrant
