

## SAINT JOHN BUSINESS COLLEGE AND SHORT HAND INSTITUTE.

The object of this institution is to give young men and young women such a knowledge of commercial subjects as will enable them to fill honorable and remunerative positions. This is done by giving them just such work as will be required of them when they enter a merchant's or accountant's office.

We give more thorough Courses of training than can be obtained in any other College in Canada. The Thoroughness and Comprehensiveness of our training give our graduates decided advantages over those graduating from Colleges which give meagre courses of study. Holders of our Diploma demonstrate their superiority by their success in obtaining and holding first class positions, and in conducting business for themselves. This is proved by the large number of the most successful business men in the Maritime Provinces, are graduates of the Saint John Business College.

Each Department,—Business, Short Hand, Type Writing, and Penmanship,—is under the direct supervision of one of the Principals; each student is therefore assured of constant oversight and direction by one who understands his wants, and has the strongest interest in his success.

Send name and address for the College Calender and specimens of Penmanship.
