

LOTS WAR WORK STILL TO BE DONE

Hospitals Must Be Visited and Comforts for Men Provided.

If there are any anywhere who are forgetting that there was a war in the not long ago past, there is nothing that would bring the matter back to them as graphically as a visit to one of the military hospitals. Yesterday a representative of The World made the rounds with members of the women's auxiliary of the Knights of Columbus Catholic Huts, who were making their weekly visit to the Christie Street Hospital.

Twelve women and girls were in charge of Mrs. J. M. Vance, who, from the K. of C. boxes which are kept in the hospital for the purpose, took the supplies which had been sent in advance and distributed them in smaller boxes that could be easily carried by her assistants. The supplies consisted of cigarettes, chocolate, and other things it is known that soldiers have come to like. Then in parties of two from bed to bed in the wards went the welcome visitors, leaving two or three packages with every patient. Others were met in the corridors, and on the elevators and the exchange of smiles and passing chat were as enjoyable as the giving and receiving of the comforts.

Inquiry brought out the information that in the course of yesterday's visit the following distribution was made: 6,000 cigarettes, 8 pounds of Senator tobacco, 8 pounds of Tuxedo, 200 special K. of C. brand cigars, 125 cakes of chocolate, 325 packages of cigarettes, 325 spearmint gum and 45 boxes of armoir.

In addition anything that the men want is sent to the Knights in a special requisition. This week's request included 3 bottles olives, 4 packets cream cheese, 12 Campbell's soup, 4 angel cakes, 2 chocolates, 6 melons, peaches and cream for 50, tomatoes, celery, lettuce for 14, and other items. The outlay for this distribution among the hospitals is \$500 a week.

DEPENDABLE GARMENT BY DEPENDABLE FIRM

One would hardly associate the word "Balacava" with an overcoat, but these well-known and old-established tailors, R. Score & Son, of 77 West King street, have just perfected a coat which they have named after the famous battle. It was said that anything—men, horses, guns or clothes—that came out of "Balacava" shot whole was worthy of keeping as an historic relic. Messrs. Score have not put up this "Balacava" coat to be shot at, but it is so perfectly made from the very best materials and cloth obtainable that it will stand up against all weathers—rain or sun—and still maintain its shape and appearance. In fact, you may "shoot" it with shot and shell, but it always looks "good."

The "Balacava" is made in various styles—the dress, the sports, belted, walking, ulster, slip-on, wind-repeller, walker, motor, storm ulster and the traveler. The coat is not factory-made. It is strictly a high-class, hand-made article, and can be obtained ready-made or made-to-measure.

The firm of Score's was established in Devonshire, England, in 1763, but only in the last century did Richard Score come to Canada and establish a business in Toronto. The family have a local directory of 1837, in which a, years the name of "Richard Score, ruler, Duke street." The business since it was first founded has never been out of the hands of the family.

An excellent proof of the quality of the work obtained from the firm, is the descriptive of the new coat.

CAN RETURNED MEN GET TAXATION EXEMPTION?

It is understood that Controller McBride is taking up the question as to whether under a section of the assessment act returned soldiers' houses may be exempt from taxation. The question, regarding this, which is stated Assessment Commissioner Forman will be asked to report, is: "The county of any local municipality may, without the assent of the electors, pass a bylaw exempting from taxation, except for local improvement and school purposes, for a period not exceeding 10 years, dwelling houses assessed at not more than \$2,000, owned and occupied by officers or men who have been on active service overseas during the present war with the naval or military forces of Great Britain or Great Britain's allies."

USED SHORT MEASURE

The local weights and measures inspectors yesterday brought R. S. Gallagher to the police court for using an unjust measure. He was arrested on a charge of using a short measure, which, on being tested, was found to be two pints short. Gallagher was fined \$20 and costs, which shows his offence must have been a pretty serious one. Now the weights and measures inspectors have begun to use their eyes, they may find a good many unjust measures in and around the city.

Social Service Societies Not in Favor of Games on Sunday.

According to a report received by the central council of the Neighborhood Workers' Association at their regular meeting yesterday afternoon none of the social service societies are in favor of having the playgrounds open on Sunday. The only society that stated that they had no objection was the Federation of Jewish Philanthropies. The committee in its report, however, stated that physical danger of recreation on Sundays was not as serious as on week days, owing to the absence of heavy traffic on the streets. The fact that parents are usually home on that day and that they could look after their children was also pointed out.

The general feeling of the central council was that more playgrounds were necessary in the congested districts.

In the opinion of the central council, Parks Commissioner Chambers is not getting sufficient support from the civic officials to enable him to widen the scope of his activities in providing playground accommodation for the children and parks for the city.

Many Cases Handled. The report of the district secretary for the months of July and August shows that 470 cases were handled by the association during those months. Of these 45 were due to desertion, 37 unemployment, 51 low wages and military cases 23. Hundreds of other cases arising from other sources were also dealt with.

The central council decided to make a canvass of all organization officials with the Neighborhood Workers' Association in connection with securing volunteer workers for social work. "We feel that there are a number of people who devoted their time to war work that would like to take up the question of social service," stated an official after the meeting. "We will get in touch with various societies and individuals and see if we cannot enlist them for this social work."

The secretary of the association was instructed to write to the board of education in reference to the wider use of school buildings. The council felt that the schools ought to be the property of the people living in the community, to be used in any way that would be to the advantage of the people in the vicinity.

The executive was also authorized to make all preparations in case of the return of influenza.

MORE MONEY TO BE SPENT FOR ISLAND PROTECTION

An additional \$1,000 for shore protection at the island was yesterday favored by the parks committee of the city council. Commissioner Chambers had reported that the temporary breakwater along the south shore of the island from Manitou road to Ongiara avenue, at a cost of \$2,069, has so far served the purpose of protecting the property in front of which it has been placed. As the result of recent storms, however, serious erosion has been caused to the shore west of this. It was to remedy this that \$1,000 was asked to extend the work from Ongiara avenue to a point west of Cherokee avenue. Ald. Russell Nesbitt strongly supported the \$1,000 recommendation.
