The centrepole of the burning pile was 60 feet in height and the roaring flames which ascended from it must have been seen across the lake. McIntyre & Wardwell send the following despatch to their branch office in Toronto:
There was a decided improvement in the tone of the stock market to-day, and prices made a substantial advance. The imports of gold was the bullish influence, and political outlook was regarded as better. The July statement of Burlington was more favorable than had been expected, and stimulated covering of shorts. The banks have lost about \$2,600,000 to the Treasury this week and about \$5,500,000 has been shipped to the interior. To recoup themselves they have called money in Wall-street, The strain, however, is over now, and it is thought that the money market will soon ease on the heavy gold imports to arrive next week.
