Gray Eagle Mine.

Mr. Theis is also associated with Col. I. N. Peyton, formerly one of the heavy owners in the famous Le Roi mine of Rossland, B.C.; L. F. Williams, another gentleman who cleaned up a fortune in the same becanza; Forster & Wakefield, a prominent firm of attorneys, and other local gentlemen in the Gray Eagle mine, situated about five miles from the Deer Trail, in the same camp. Of the Gray Eagle he said: "We are developing this mine in good order and will shortly ship two more cars of ore. This shipment will run very high. The ore samples, in carload lots, 17.6 per cent. lead, 360 ounces silver, or a total value of \$231.14." In conclusion, he stated: "There are many other good properties in the camp that are undergoing considerable development, and it is my firm opinion that in time Cedar Canyon camp will rank as one of the leading producers of the 'white metal' on the American continent."

Following is an extract from a letter of Mr. Fred W. Burritt, M.E., dated at Port Arthur on June 14, 1899, to Mr. Ewan Mackenzie, President of the Ontario Reefs Mining and Development Company, Limited: "After pumping out the shaft on R. 83 and ascertaining that the work had not been none upon the vein, I directed my attention to the Adit Level, as the showing in the breast of same appeared to have the same strike as the Crown Point vein; this has proved to be so.
"As I informed you before this, adit was in very bad shape, the timbering having given away, filling up the level with soft ground from above. After cleaning up we started upon the vein 20 inches in width, which assayed as high as 20 ounces in silver per ton.

np, the balance, 10 inches, will assay about 20 onnces.

"This pay streak, which is very fine ore, I am sorting out and packing away with a view of shipping in barrels. I have one filled already. The balance of the vein I intend crushing and concentrating for shipment."

A New Mining Broker.

A New Mining Broker.

The World welcomes to Toronto Mr. W. E. Watson, late of the Morgan-Watson Mining and Construction Company of Cleveland, Ohio. Mr. Watson has conducted a successful mining and general broker's business in Cleveland for some time.

He represents large mining interests held by American capitalists. Mr. Watson says that mining companies organized under the laws of the Province of Ontario command strong preference, even in the American markets, over their own companies and for this reason Mr. Watson has decided to pernamently reside in Toronto. He is one of the promoters of the Black Hawk Gold Mining Company, the shares of which will be upon the market shortly. Mr. Watson is a Canadian and a native of the County of York. He has been in the States for a number of years. He has offices in the Manning Arcade, and he will do business for a large Cleveland clientage, and special attention will be paid to business upon the Foronto markets.
