World Office,  
Monday Evening, April 11.

The Interacting of the Dominion Steel

Issues into the trading on the local market

was the only feature of significance to-  
day. The common stock and bonds of this

company were both handled in quantities

large quantities, and no further improvement

than that of manipulation was attached to

the dealings. Dominion Steel was carried

at the original price of the rally, but

reaped into comparative dullness later in

the day at a point consequent on the

morning's high price. It was the only

active issue. The buying was steady

of this stock at the advance, the closing

price was at the top for the day. Trac-

tions were firm and but little changed

last week's high prices, and this might

also be said of the balance of semi-specu-

lative issues. Except in the case of the

Dominion Steel, no further improvement

was shown. The market was generally

dull, and the closing prices were at

the level of the previous day.

At Boston, today Dominion Steel closed

at 55, asked 60, and Dominion Steel

at 104, asked 104.

Steel schedules are now all adjusted for

the second quarter of the year.

Railroad equipment companies are gen-

erally suffering from contraction of busi-

ness.

There is talk of a dividend on M. K. and

T. preferred next fall.

Eighty-one roads for February show

an average net decrease of 10.16 per cent.

J. J. Hill says he will retire and sell

Great Northern if Harlan will in the

merger suit.

There is plenty of steel preferred in the

crowd, but some for Atchison com-

mon.

Cables reiterate the prediction that the

Bank of England discount rate will be re-

duced this week to 2 1/2 per cent.

Banks gained \$3,400,000 for the sub-

sidary on Saturday, reflecting the Japan

gold payments. Since Friday the banks

have gained \$5,040,000 for the sub-

sidary.

Hedger have engaged \$1,000,000 of addi-

tional shipping by steamer, and are

other foreign houses are figuring on ship-

ping.

Chicago—E. H. Harriman met many bank-

ers and railroad officials in his hotel here.

When asked if his Northern Securities

suit was a friendly one, he replied: "I

would rather not tell you. I get Mr.

Hill's permission to do so."

A Halifax wire chronicles the striking of

300 men employed by the contractors in

the construction of the new railway plant

for the Dominion Steel Company, at Syd-

ney, for higher wages.

London, April 11.—Americans closed on

the curb heavy and neglected to add to

the amount of 2,500,000 pounds for the

open market today for purchases.

Joseph says: The motive powers, cheap

money, improving business and returning

confidence will be the general market

materially higher level. Transactions will im-

prove. B.B.T. is good for 60. Metropolitan
