KITCHENER MAN KILLED

Kitchener, Nov. 24.—Pte. Philip Van Audenaide, a Belgian, formerly a well known barber of this city, died from

wounds received in the battle of the Ancre, November 18. He enlisted with the 48th Battery. He leaves a wife and three children who reside at present in Breslau.

EXPECTED WEAK SPOT TOWER OF STRENGTH

Janvin Filled Gap in Red Sox Infield When Barry Was Hurt.

Baseball Magazine: The baseball scene moved restlessly to and fro through the length and breadth of the country. They comb the backwoods for likely talent. They are up to secure a pitcher in Texas, a catcher in Washington, an outfielder in Maine. Locality cuts no figure. No distance is too great. But Harold Janvin, star second baseman of the Red Sox Club, was born in the very shadow of Fenway Park.

A month before the season ended I talked with Pat Moran of the Philadelphia team. "The loss of Barry should prove a damaging blow to the man in their line-up," said Pat. "He was the most valuable man on the team. He was a severe doubter of the loss of Barry was a severe blow to the support of their backstop during the world's series. But it is hard to see how even the loss of Barry would have improved very much on the work of Harold Janvin."

This still, slender, yet worked in superb harmony with Everett Scott and between them they smothered the offensive tactics of the enemy during time after time. Surely no greater play was ever made around second base than fairly acquitted Janvin and Scott.

Harold Janvin was born at Boston twenty-four years ago. In due course of time he entered the English High School, where he established himself as an athlete which, it is safe to say, will never be surpassed. One season he represented his school in basketball, and the following year, namely, baseball, football, track athletics and hockey. The rather slender build he was a great football player and his speed as well as all-round athletic intelligence made him one of the best backs in the country. His efficiency at such dissimilar sports as football, skating and the high hurdles was at least astonishing and at the latter sport he once established a record at the Boston Athletic Association.

Having completed his high school studies, Janvin worked for a time for a leather house, his gifts as an athlete were so pronounced that he was foreordained to be a ball player, if we may use that phrase. He was without previous minor league experience.

There is a general disposition to ignore talent that is not of the "old guard" variety. Thus John McGraw allowed Eddie Collins, greatest of second basemen, to grow up in the rear vicinity of the Polo Grounds only to drift to Philadelphia in 1912. While Heine Zimmerman and Dick Rudolph, two other notable sons, gained all their reputation with clubs other than the Giants.

But in the case of Janvin, the Boston management was quick to seize so promising an athlete. He was offered a contract to a team before any other club had a chance to beat them to it.

Thus it happened that Janvin became a member of the Red Sox squad in 1911, tho he didn't get into games enough to secure mention in "baseball" for some time to come. Once in 1912 he was loaned to Jersey City, as he could secure more experience in this way than as a bench warmer at Boston. But since 1912 he has been extremely useful to Boston in the role of a utility infielder.

Dr. Janvin has been noted from the outset of his career as a brilliant fielder and a rather weak batter. But his speed of intelligence and general adaptability have improved him as a hitter and

done far to make him a finished ball player. It was hard on Barry, tho his injury prevented his taking part in the series just closed. But after all, the famous Athletic star has had his fair share of world series glory. Janvin, a young man with his fortune still to make, went into the series as a step-up man, and he proved, by brilliant play, that he was well fitted to fill the shoes even of the \$100,000 infield.

CHEAP POLICY FAILURE OTTAWA WILL BOOST

Dey Finds That He Cannot Get Players for Clerks' Salaries.

Special to The Toronto World.

Ottawa, Nov. 24.—A new agreement between the Ottawa Hockey Club and Operator Ted Dey, it is stated, will likely be formed tomorrow night, when a star chamber session is booked to be held at the Ottawa Hotel.

It leaked out at a later hour tonight that Mr. Dey had an agreement with the Ottawa Hockey Club to run the club at so much per up to a certain point. This point was passed the Ottawa director and is going to be a serious matter. The whole operation, if Mr. Dey was to make anything out of the situation, was the possibility of the Ottawa Hockey Club. The players stuck to their guns and wanted money, so Mr. Dey was put in a hole and stood to be lost.

As the whole hockey situation is generally admitted here to be in a bad mess something is going to be done to make tomorrow night to patch things up. What the outcome will be anyone is at liberty to guess, but the up tonight is that a new agreement will be made.

If a new agreement is sanctioned permitting a larger expenditure for players, it is likely that the "old guard" will return to the fold and Ottawa will be a factor in the N.H.A. race.

Jack Williams, the well-known big half-back and several seasons captain of the Ottawa football team, is, according to reports from the militia department, reported wounded.

Lieut. "Bob" Greene, bank manager, and one of Canada's greatest craftsmen, who was a member of the famous Ottawa Hockey Club, is reported to be missing. He is reported as being "missing," believed killed. Williams comes from Kingston. Greene is a lifelong Ottawa boy and one of the capital's foremost athletes.

Says India Loyal, Tho

Small Grudges Active

Brantford, Ont., Nov. 24.—Murray G. Brooke, general secretary of the C.I.A. at Colombo, Ceylon, visited the local institution here today. He declared that the great heart of India is absolutely loyal to the British Empire, altho there were some private grudges, some who try now and again to stir up trouble. There were more such, than in Canada, any other British dominion. He stated there were "Y" secretaries with British Indian forces in Mesopotamia, France, Egypt, and German East Africa, where the Sepoys are fighting.

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous, "Run-Down" Folks 200 Per Cent. in Two Weeks' Time.

A WONDERFUL DISCOVERY WHICH PROMISES TO MARK A NEW ERA IN MEDICAL SCIENCE.

NEW YORK, N.Y.—Since the remarkable discovery of organic iron, Nuxated Iron or "Fe Nuxate," as the French call it, has taken the country by storm it is conservatively estimated that over five million persons daily are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men.

Dr. King, a New York physician and author, when interviewed on the subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone, they become weak, nervous, irritable, dependent and melancholy. When the iron goes from the blood of women the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, eggs, lard, degenerated corn meal, no longer is iron to be found. Refining processes have removed the iron from Mother Earth from these impoverished foods and daily methods of home cooking, by throwing down the waste pipe, the water in which our vegetables are cooked, are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Bauer, who has studied abroad in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple Nuxated Iron I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause of these diseases was nothing more or less than a weakened condition brought on by a lack of iron in the blood."

"Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty and the vim and vigor of a young man. He was in fact, a young man really was, notwithstanding his age. The secret, he told me, was Nuxated Iron. He had filled him with it, and now he was in the best of health, at forty-six he was as young as nearly all in. Now at fifty a miracle of vitality and his face beaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat your food merely passes through you without doing you any good. You don't get the strength

out of it, and as a consequence you become weak, pale and sickly-looking. Just try to grow in a soil devoid of iron. If you are not, you owe it to yourself to make the work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron from ten to fourteen days' time simply this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the

red coloring matter in the blood of her children is alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron. While he went down in the ring, while many another has gone down in the ring, he was simply for the lack of iron."

Dr. Schuyler C. Jacques, another New York physician, said: "I have never before given out any medical information or advice for publication, and I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

AGAINST GAME OF BALL NOT THE COMMISSION

New York, Nov. 24.—"Should the major league players declare a sympathetic strike in protest of the refusal of the National Association to grant certain requests of the Baseball Players' Fraternity, it will be a strike, not against the National Commission, but against the very game of baseball itself," said President John K. Tener of the National League in a statement issued here today in reply to a strike threat by President David Fultz of the Fraternity.

"I cannot conceive that young men like our players can talk of attempting to tie up their business over such a trivial matter as is involved in the dispute between the Players' Fraternity and the major leagues. A strike of this kind would simply mean that big league players would have to bear the entire brunt of it. The class A and minor leagues could easily pick up sixteen men for their teams, while the big leagues were idle. I will go further than that and say that in disputes between players and club owners the commission always has leaned toward the player. And now these same players threaten to call a strike because of some unimportant minor league issues."
